

OEM Engine and Drivetrain Warranty

JOHN DEERE

KEEP IT RUNNING

John Deere provides one of the best warranties in the business. Our standard warranty applies not only to the new OEM engine or drivetrain product, but also to John Deere parts and accessories added by a John Deere engine distributor.*

COVERAGE THAT COUNTS

Warrantable repairs will be made without charge for parts or repair labor if the defect appears within the warranty period — as measured from the initial delivery date. This includes reasonable costs of labor to remove and reinstall OEM parts or components in which the engine or drivetrain component is installed, and, when required, reasonable costs of labor for product removal and reinstallation.

Visit [JohnDeere.com/WarrantyStatements](https://www.johndeere.com/WarrantyStatements) to view, download, or print warranty details for your equipment.

REGISTER YOUR ENGINE OR DRIVETRAIN PRODUCT

Register your John Deere OEM product and enable your John Deere dealer to respond should you need a warrantable repair.* Registering your engine or drivetrain component gives us the information needed to stock the right service parts, maintenance products, and servicing tools.

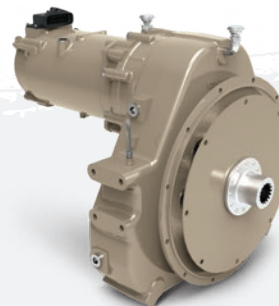

Go to [Productregistration.deere.com](https://www.productregistration.deere.com) or scan the code to register your equipment.

John Deere industrial and marine OEM engines

- 1 year, unlimited hours of use
- OR
- 2 years and prior to the accumulation of 2,000 hours of use

John Deere OEM drivetrain products

- 1 year or 2,000 hours, whichever comes first

*When sold by John Deere, its authorized dealers and distributors, and delivered to the first retail purchaser. See specific OEM product warranty language for applicable terms and conditions. Refer to the John Deere new engine warranty for complete warranty coverage details. Not available in all countries. Unless otherwise provided in writing, John Deere makes the above warranty to the first retail purchaser and each subsequent purchaser, if subsequent purchase is made prior to expiration of applicable warranty. In the absence of a functional hour meter, hours of use will be determined on the basis of 12 hours of use per calendar day.

OEM ENGINE EXTENDED WARRANTY PLANS

EXTEND YOUR PEACE OF MIND

When you buy a John Deere-powered machine, you're buying the ability to get work done — without downtime, without worries, and without hassles. And you're buying the assurance that if you do need help, our strong support network of over 9,000 service locations worldwide will be ready to step in.

EXTEND YOUR PROTECTION

Avoid unexpected repair costs with the protection of a John Deere OEM engine extended warranty plan. No preapproval of warrantable failure claims is necessary. Simply call or visit any authorized John Deere dealer for fast, reliable service and pay only a deductible per claim. Our extended warranty plans protect the engine as well as any components and accessories installed by John Deere and our engine distributors.

Act now. Extended warranty plans must be purchased through an authorized John Deere service outlet before standard warranty term hours or years expire. If purchased after the first year of warranty and prior to 2,000 hours of use, a surcharge applies.

EXTEND YOUR RESALE VALUE

Only new or remanufactured parts and components approved by John Deere are used for warranted repairs. Maintaining your engine with John Deere parts not only keeps your equipment running smoothly, but it also helps retain your equipment value when it's time to sell or trade. Any remaining extended warranty coverage is fully transferable to a new owner, with no transfer fee.

EXTEND YOUR ENGINE COVERAGE

Extended warranty plans for John Deere OEM engines offer flexible coverage — up to five years or 10,000 hours in specific applications. Select from a variety of coverage lengths, in total years and total hours, depending on how long you plan to own your engine and your estimated annual usage.

John Deere industrial and marine OEM engine extended warranty plans

Years of Coverage*	Cumulative Hours of Use
2 Years	2,000 Hours
3 Years	3,000 Hours
4 Years	4,000 Hours
5 Years	5,000 Hours
5 Years	10,000 Hours (industrial engines only)

*Coverage is measured from the date of delivery to the original retail purchaser.
