

PRODUCTIVITY | UPTIME | LOW DAILY OPERATING COSTS

**JOHN DEERE**

Nothing Runs Like A Deere™

**This hard-charger is driven from within.** Thanks to 26 percent more hydraulic flow across the board, and 17 percent more to the harvester head, the 759JH Harvester makes hard work easy. This go-getter features a factory-installed fully integrated measuring system for “plug-and-play” Waratah heads. And for clutch performances, they’re powered by an efficient load-sensing hydraulic system that delivers power when and where you need it most. Add in the robust Shift-tilt™ four-way leveling system — the industry’s most stable platform on difficult slopes — and impressive improvements in boom reach, and you’ve got a fierce competitor that never quits. To see it in action, contact your John Deere dealer, or call 1-800-503-3373 today.
