

Superior grading begins with the Frontier Land Planes

Level driveways. Fill potholes. Recondition gravel roads. With the Frontier Land Planes, you can easily finish a number of landscaping and grading chores. Simple to operate and easy to maintain, the Frontier Land Planes are ready to tackle the demands of tough groundwork. Plus, they're a good, economical choice for all-purpose leveling and grading jobs.

The LP10 Series Pull-Type Land Planes are perfect for ATV's, UTV's, and small utility tractors. They are available in two cost-effective sizes; the 4-foot LP1048 and 5-foot LP1060.

The LP11 Series Land Planes are 3-point hitch-mounted models – ideal for tractors from 18 to 75 horsepower. These versatile tools feature reversible cutting edges and are available in working widths from 5- to 8-feet. Also, the LP11 Series Land Planes are iMatch™ compatible for fast and easy hook-ups. Simply back up your tractor, connect, and go.

Rugged and reliable, the Frontier Land Planes are the tools of choice for smooth grades over challenging terrain. Equipped with a heavy-duty frame and 3/16-inch side plate thickness, these durable implements are built to last.

Frontier Land Planes are sold and supported by John Deere dealers. To help you select the right model of Frontier Land Plane, talk to your local John Deere dealer, your exclusive source of Frontier Equipment.

3-Point or Pull-Type Models Available

Frontier Land Planes

Get the job done... quickly, efficiently.

DETAILS

All Frontier LP11 Series Land Planes are compatible with the iMatch™ Category 1 quick-attach hitch system. iMatch converts your tractor's 3-point hitch to fixed hooks and attaching points for quick and easy connection. Frontier LP1184 and LP1196 models are also Category 2 Quick Coupler compatible. (iMatch hitch sold separately.)

For the LP10 Series, an optional Electronic Actuator replaces the standard manual ratchet, allowing you to save time. Simply connect it to your tractor's 12V power supply and make raising your land plane a breeze.
