

A tradition of trust. A solid source for crop insurance.

John Deere offers a full range of crop insurance products through Westfield Insurance Company, presented by agents with experience and expertise and delivered through industry-best practices, to give you the best options with exceptional customer service. You'll have the confidence of working with John Deere, the most trusted, knowledgeable brand in agriculture.

Overview

- Provides additional coverage for your increased hybrid rice yield potential.
- The increased coverage will be based on an amount that you choose.
- Allows you to cover your hybrid rice acres up to a yield equal to 100 percent of your Actual Production History** on a unit basis.
- Supplements your John Deere MPC1 rice policy to ensure that you can take advantage of the federal subsidy.
- Integrates proven best management practices as approved and published by RiceTec.
- Available only in approved states.

Benefits

- Works with your MPC1 policy to minimize additional reporting.
- Allows you to limit the increase in coverage to only your hybrid rice crop.
- Provides reassurance, whether you have experience growing hybrid rice or are planting it for the first time.

**As defined in the Hybrid Rice Policy

JOHN DEERE

John Deere Hybrid Rice Insurance

John Deere Risk Protection is excited to bring you a new policy that covers the additional yield potential and value associated with growing hybrid rice. Developed in cooperation with RiceTec, Inc., this policy works with your John Deere MPCU policy to increase coverage for those acres you plant to hybrid rice.

About RiceTec

Founded in 1990, RiceTec uses modern, technology-based breeding techniques combined with a broad, diverse germplasm collection to efficiently develop and economically produce superior hybrid seed products, as well as specialty rice for consumer markets. www.ricetec.com

Coverage Example

Calculation is on a per acre basis.

Assumptions

MPCI rice price: \$0.10/lb.

Lbs. APH: 6,800/ac.

Coverage level: 65%

Lbs./acre guarantee:

APH (6,800) x Level (.65) = **4,420/ac.**

MPCI coverage:

MPCI rice price (\$0.10) x Guarantee (4,420) = **\$442**

Max coverage:

MPCI rice price (\$0.10) x APH (6,800) = **\$680**

Chosen dollar per acre coverage: \$650

SCENARIO 1

• Harvested:

5,000 lbs./ac. MPCU Unit

5,500 lbs./ac. Hybrid Rice

• Revenue to count:

Harvested (5,500) x MPCU rice price (\$0.10) = **\$550/ac.**

• MPCU indemnity:

Guarantee (4,420) - Harvested (5,000) x MPCU rice price (\$0.10) = **\$0/ac.**

• Hybrid rice policy indemnity:

Coverage (\$650) - Revenue to count (\$550) - MPCU indemnity (\$0) = **\$100/ac.**

SCENARIO 2

• Harvested:

2,500 lbs./ac. MPCU Unit

4,000 lbs./ac. Hybrid Rice

• Revenue to count:

Harvested (4,000) x MPCU rice price (\$0.10) = **\$400/ac.**

• MPCU indemnity:

Guarantee (4,420) - Harvested (2,500) x MPCU rice price (\$0.10) = **\$192/ac.**

• Hybrid rice policy indemnity:

Coverage (\$650) - Revenue to count (\$400) - MPCU indemnity (\$192) = **\$58/ac.**

Note: Policy provisions supersede information contained in this brochure.

Your Own Example

Calculation is on a per acre basis.

Assumptions

MPCI rice price: _____/lb.

Lbs. APH: _____/ac.

Coverage level: _____%

Lbs./acre guarantee:

APH (_____) x Level (_____) = _____/ac.

MPCI coverage:

MPCI rice price (_____) x Guarantee (_____) = _____

Max coverage:

MPCI rice price (_____) x APH (_____) = _____

Chosen dollar per acre coverage: _____

SCENARIO 1

• Harvested:

_____ lbs./ac. MPCU Unit

_____ lbs./ac. Hybrid Rice

• Revenue to count:

Harvested (_____) x MPCU rice price (_____) = _____/ac.

• MPCU indemnity:

Guarantee (_____) - Harvested (_____) x MPCU rice price (_____) = _____/ac.

• Hybrid rice policy indemnity:

Coverage (_____) - Revenue to count (_____) - MPCU indemnity (_____) = _____/ac.

SCENARIO 2

• Harvested:

_____ lbs./ac. MPCU Unit

_____ lbs./ac. Hybrid Rice

• Revenue to count:

Harvested (_____) x MPCU rice price (_____) = _____/ac.

• MPCU indemnity:

Guarantee (_____) - Harvested (_____) x MPCU rice price (_____) = _____/ac.

• Hybrid rice policy indemnity:

Coverage (_____) - Revenue to count (_____) - MPCU indemnity (_____) = _____/ac.
