**PowerTech™**

6135SFM 85 Diesel Engine

Marine Propulsion Engine Specifications

---

### Emissions

- **EPA Commercial Marine Tier 3**
- **IMO MARPOL Annex VI Tier II Compliant**
- **NRMM (97/68/EC) as amended**

---

### Dimensions

Dimensions shown in mm (in) may vary according to options selected. Contact your distributor for more information.

### General Data (Based on Standard Option Configuration)

Metric hp = Brake hp x 1.01387
Ratings are based on ISO 8655 standard power rating and the SAE J1 228 crankshaft power rating.
Flexibility of installation due to range of options.
See your John Deere Power Systems engine distributor or marine dealer for more detailed performance information.

Features and Benefits

High Torque and Low Rated RPM
- High torque provides excellent vessel control and maneuverability. Lower rated propulsion RPM reduces vibration and noise for improved crew comfort.

4-Valve Cylinder Head
- Excellent airflow through 4-valve cylinder head delivers greater low-speed torque and better transient response time.

Electronic Unit Injectors (EUI)
- The EUI fuel system provides higher injection pressures. It also controls fuel injection timing and provides precise control for start, duration, and end of injection.

Water-cooled Exhaust Manifold
- Integrated components eliminate external hoses and fittings that can leak or break. Wet exhaust manifold creates a cooler and quieter environment for passengers and crew.

Turbocharged with Air-to-Seawater Aftercooling
- Cooler turbocharger operation enables higher ratings and efficiencies for applications that require high power or speed.

Replaceable Cylinder Liners
- Replaceable wet-type cylinder liners are precision-machined and hardened for long life. Allows engine to be rebuilt to original specifications.

Electronic Engine Control Unit (ECU)
- Advanced fault code diagnostics and customizable engine protections ensure reliability and uptime. Provides highly customizable features and trim to integrate your vessel.

Heat Exchanger
- High-capacity heat exchanger provides reliable operation in adverse conditions.

Multiple Service Options
- Either-side oil fill/dipstick combinations and remote oil and fuel filter options are available for easier service access.
