IMPORTANT

The following information and hardware requirements are critical to the capability and proper functioning of web and downloaded Customer Service ADVISOR. Downloaded Customer Service ADVISOR is required for machine connectivity.

If each MyJohnDeere.com user id requires offline access for machine connection capability, each individual MyJohnDeere.com user must install Customer Service ADVISOR on separate devices using their unique MyJohnDeere.com id. Offline access and machine connection capability is only accessible to the MyJohnDeere.com id that installed Customer Service ADVISOR on that device. Web access will be available to other users on devices other than their own.

Key information:
1. Laptops will continue to be required to fully utilize all the features of downloaded Customer Service ADVISOR. You can access web Customer Service ADVISOR without installing downloaded Customer Service ADVISOR.
2. Without an internet or cellular connection, web Customer Service ADVISOR will not be available on mobile devices.
3. Live vehicle connectivity will not be available with mobile devices.
4. Customer Service ADVISOR does not test for compatibility with competitor’s service tools.
5. Google Chrome™ or Windows Edge™ Chromium required for web Customer Service ADVISOR

Laptop Hardware Requirements (Downloaded Customer Service ADVISOR and Connectivity)

Note: These specifications are to load and utilize the downloaded Customer Service ADVISOR application and for machine connectivity.

Operating System Microsoft Windows 8.1 and Windows 10
Recommended (Minimum)
