Be at Ease

WITH **JOHN DEERE PROTECT™**

Run with more confidence by investing in **John Deere Protect¹** for your new 6R, 7R, 8R or 9R Series tractor. Lock in annual maintenance costs² and reduce the risks of unexpected downtime and repairs with a **Maintenance Plus Plan³**, which is designed specifically for your tractor. Major benefits include:

- **24-HOUR UPTIME ASSURANCE⁴**
- **3 END-OF-SEASON EXPERT INSPECTIONS⁵**
- **3 TO 7 SCHEDULED MAINTENANCE EVENTS^{5,6}**
- **GENUINE JOHN DEERE PARTS & SERVICE**

**JOHN DEERE
PROTECT
AT A GLANCE**

Get protected. Contact us today.

¹John Deere Protect must be purchased in conjunction with a PowerGard™ Comprehensive Protection Plan with a minimum term of 36 months/1,500 hours or 36 months/3,000 hours. Longer PowerGard plans can also be purchased.

²Excludes diesel fuel and diesel exhaust fluid.

³For complete plan details, contact a participating dealer near you.

⁴Subject to machine availability.

⁵Every expert inspection and maintenance event (and all of the suggested adjustments and repairs) must be completed by your local John Deere dealer.

⁶Number of scheduled maintenance events varies based on specific model. Please see your participating dealer for complete details.

JOHN DEERE

Outfit your best friend in new John Deere gear from Pet's First.
Available at your John Deere dealer.

Add A Little. Gain A Lot.

S-Series LED lighting options include cab, work light and complete machine.

Work well beyond sundown and cover a lot more acres with an LED light kit for your S-Series combine. Adding accessories and attachments, like lighting and the ones below, go a long way in boosting the productivity of your combine, tractor, sprayer and tillage equipment.

3D90 SPRAY NOZZLE

Offering excellent drift reduction while still maintaining consistent coverage, the John Deere 3D90 spray nozzle is compatible with pulse-width modulation (PWM) systems.

REVOLUTION™ CONCAVES

With easy-to-install, half-width Revolution concaves, you can boost your total combine capacity at lower power consumption; reduce whitecaps without concave covers to increase threshing capacity; and fine-tune harvest performance.

PLUS SWEEPS

PLUS Sweeps provide extraordinary wear resistance — lasting 2-3 times longer than uncoated sweeps — thanks to a uniquely formulated tungsten-carbide blend. Available on both Perma-Loc™ High-Productivity and Tru-Width™ sweeps.

LED BEACON LIGHTS

Eliminate the hassles of replacing bulbs, motor belts or broken/foggy domes with a non-rotating LED beacon light, which features a patent-pending, fold-and-lock “breakaway” system for damage protection.

STALK DEFLECTORS

Protect your combine tires and tracks from tough corn hybrids with stalk deflectors. Sitting behind each row or just in front of the combine tires, you can fracture corn stubble by pushing it down to the ground.

CONTACT US TO LEARN MORE

John Deere doesn't just stop at parts... we've got you covered!

Whether you're out in the field, hard at work in the shop, or hanging out in the house, you can count on the John Deere team to keep you stocked, locked, and ready, all year long.

From our friendly dealerships to our comprehensive catalogs, you'll find a complete lineup of quality gear. We carry everything you need from maintenance products to equipment attachments, clothing, tools, toys, and more.

So if you're preparing for next season or just looking for a unique gift idea, remember the John Deere team. We're here to help you get the job done right.

Corn Head Parts

Gathering Chains

Features of Genuine John Deere Chains:

- The face of each flight is extended down to create a lip between sidebars—this prevents debris from collecting at the roller and reduces wear on the chain and sprockets
- The flight face slants at a 15-degree angle away from roller chains to create a self-cleaning effect as the flight moves ears towards the auger
- Chains are coated with a rust-preventative chain lubricant

NUMBER	DESCRIPTION	TYPE	LIST	NOW

RETOOL WITH ROWMAX

STALK DEFLECTOR

CHAIN KIT

STALK ROLLS (2)

Why trade when you can upgrade with RowMax. Our performance upgrade extends the life of the row unit on your John Deere 600C/FC or 700C/FC cornhead (MY12 or newer). Along with an **advanced gathering chain** that features 12 additional links, two more sprocket teeth and upgraded alloy bushings, RowMax now has an **all-new stalk deflector** manufactured with ¼ in. abrasion-resistant steel. Plus, you get your choice of stalk rolls: straight fluted, opposed knife, intermeshing knife or **chopping stalk roll**.

JohnDeere.com/CombineParts

NUMBER	DESCRIPTION	LIST	NOW
BXE11362	Stalk Deflector	\$752.40	\$692.21

Also order KXE10528 metal guide kit to complete installation for RowMax Kit KXE10487.
For installing Stalk Deflector on 600/700 series heads, also order 4 HXE156717 stud bolts per row.

GIVE YOURSELF A CUTTING EDGE

John Deere's innovative lineup of stalk rolls is now better than ever with the new **CHOPPING STALK ROLLS**. Featuring 10 intermeshing knives, these rolls size most residue 6 inches or less. Plus, they explode the top of the stalk for reduced tire and track wear and drop residue right on top of the row for improved planter performance in no-till or strip-till operations.

Along with the chopping stalk roll, John Deere offers other uniquely engineered solutions to meet the residue processing needs of your **600/700 SERIES CORN HEAD**.

- 1 STRAIGHT FLUTED STALK ROLLS**
for slow residue breakdown
- 2 OPPOSED KNIFE ROLLS**
for moderate stalk processing
- 3 INTERMESHING KNIFE ROLLS**
for aggressive stalk processing
- 4 CHOPPING STALK ROLLS**
for highly aggressive stalk processing

Platform Parts

Innovative Engineering

John Deere sickle sections are engineered for maximum performance.

- The tapered tip and consistent serrations maintain sharpness
- The anti-buildup zone reduces clogging and increases capacity
- The innovative breakage zone allows the section to break, rather than bend, without damaging guards—all while reducing overall cutterbar weight
- Austempering heat treatment gives the entire section strength and balanced wear

Sections

Fine-Tooth Sections – Recommended for small grains.

Coarse-Tooth Sections – Recommended for green-stemmed crops like soybeans.

No-Till Sections – Recommended in no-till conditions to prevent corn stalks from pinching.

Don't discount your guards

Only replacing your knives is like sharpening one side of your scissors. A dull edge on your guards can sacrifice cut quality and potentially force you to run slower...costing acres per hour.

John Deere offers green, high-wear guards that come standard from the factory. These guards go through an added boronization process that gives them twice the wear life compared with the standard black guards. If your conditions don't require that added wear life, the standard, black guards are case hardened all the way around. This provides a longer wear life compared to some aftermarket guards that are only induction hardened at the corners of the cutting edge.

Make sure you're using the right cutting system for your primary crop.

- Long-point guards and fine tooth sections – small grains
- Blunt-point guards and coarse-tooth sections – soybeans
- No-till sections and guards – to help prevent corn stalks from hairpinning

Auger Fingers Kits

As crop material moves to the center of the platform, auger fingers, finger bearings, and finger guides deliver material to the feeder house. The fingers and bearings should be checked periodically and replaced if there is excessive play. John Deere offers two different types of auger fingers:

Steel Fingers

- John Deere fingers are made out of boron steel and heat-treated for long wear
- A narrow, breakaway groove in the finger protects it and allows the finger to break, rather than bend, to prevent damage to the auger

Composite Fingers

- John Deere composite fingers are known for their strength and resiliency in most crop conditions
- Reduce damage from broken fingers

Rasp Bars

John Deere Black-Hardened Rasp Bars

- Serrated rasp bar has a gently contoured surface design that wears to an even, smooth profile
- Recommended for use in harvesting corn, popcorn, soybeans, malting barley, edible beans, or any seed crop where high quality grain is demanded

John Deere Chrome-Hardened Rasp Bars

- Provide twice the wear life of the non-chromed rasp bars
- Feature a smooth, contoured profile design with sharp surface edges
- Ideal for general use in all crops where long-lasting, efficient threshing performance is desired

Clean Grain and Tailings Elevator Chains

Elevator chains should be checked for stretch and adjusted or replaced as required. The rubber paddles can develop rounded corners and edges, resulting in grain leakage. The most common reason for excessive elevator chain wear is too much tension. A chain that has too much tension will get tighter as the chain conveys material and could cause shaft and bearing failures.

STS- and S-Series Threshing Elements

It is important to note that three different threshing element designs are needed for the Bullet Rotor:

- First Row of Front Cone: Requires one kit of (3) threshing elements designed for mounting on the front surface of the front cone.
- Second Row of Front Cone: Requires one kit of (3) threshing elements designed for mounting on the surface of the mid-section of the front cone.
- Rear Portion: Requires three kits of (3) threshing elements designed to mount on the rear portion of the rotor.

All threshing elements listed below are available in kits of (3) only. To maintain rotor balance, all three must be installed in a row around the circumference.

How To Select The Right Concave

With the correct concave configuration, you can enhance combine performance in a wide variety of crops and conditions. Use the concave guidelines below to determine how you can increase the threshing capacity of your **John Deere STS or S Series combine**. For specialty and seed crops, always use the best-rated concave configuration.

CROP TYPE	CORN	SOYBEANS	SMALL GRAINS (WHEAT, BARLEY)	RICE
SMALL WIRE	NOT RECOMMENDED	NOT RECOMMENDED	BEST ^(4,5)	NOT RECOMMENDED
LARGE WIRE	GOOD ⁽¹⁾	GOOD	GOOD ⁽⁴⁾	BEST
ROUND BAR	BEST	BEST ^(2,6)	AVERAGE ⁽³⁾	NOT RECOMMENDED

CROP TYPE	POPCORN, FOOD CORN	MILO/SORGHUM, SUNFLOWERS (CONFECTION)	SUNFLOWERS (OIL)	CANOLA
SMALL WIRE	NOT RECOMMENDED	NOT RECOMMENDED	NOT RECOMMENDED	BEST ⁴
LARGE WIRE	NOT RECOMMENDED	BEST	BEST	NOT RECOMMENDED
ROUND BAR	BEST	AVERAGE ⁽²⁾	AVERAGE ⁽²⁾	AVERAGE

1. Large-wire concaves are not recommended for corn with moisture above 25 percent. Matting of green, leafy material significantly reduces separating capacity.
2. Optional threshing inserts are available to improve threshing ability in tough threshing varieties or conditions.
3. Optional concave threshing inserts are required in the first concave to improve threshing ability. Tough threshing conditions may require additional threshing inserts in the second and third concave sections.

4. Optional concave cover plates are available to improve threshing ability and sample cleanliness (white caps, snapped heads, unthreshed pods). Recommended for tough, damp, hard-to-thresh conditions only. Removal of every other wire is recommended for best grain quality results.
5. Optional Kondex® MaxThresh™ Concave in the first section to improve threshing.
6. Optional Kondex® MaxRound™ Concave in the first section to improve threshing.

See following two pages for parts numbers and pricing.

THRESHING INSERTS

KONDEX® MAXTHRESH™ CONCAVE

KONDEX® MAXROUND™ CONCAVE

STS- and S-Series Concave Inserts

Concave inserts provide the additional threshing action required for harvesting small grains with the round bar concaves. Concave inserts are easy to install and remove as you switch between crops.

STS- and S-Series Straw Chopper Knives

John Deere 70- and S-Series combines use a unique wing blade. The wing blade design moves more air, providing an even spread of material across the entire width of the cutting platform.

The cutting edge of the wing blade is made of wear-resistant material that extends wear life.

Chopper balance must be maintained. Follow operator manual to ensure proper blades are replaced. Depending on type of chopper, either 6 or 8 blades must be replaced to keep balance.

Grain Tank Mirror Kit

Add the Grain Tank Mirror Kit to any S-Series Combine to increase visibility of the grain tank.

NUMBER	LIST	NOW
KXE10458	\$213.41	\$196.34

Foot Pegs

Improve comfort while harvesting with this simple upgrade. Foot pegs can be installed on all S-Series Combines going back to MY12.

NUMBER	LIST	NOW
KXE10454	\$249.07	\$229.14

LED Light Kits for S-Series Combines

LED lights provide enhanced visibility and output. Three kits are available to update S600 and S700 Series Combines.

NUMBER	DESCRIPTION	LIST	NOW
BXE11505	Complete Machine LED Light Kit	\$3,912.09	\$3,599.12
BXE11506	Cab Only LED Light Kit	\$1,833.91	\$1,687.20
BXE11507	Machine Work LED Light Kit	\$1,825.03	\$1,679.03

High Moisture Kits

To minimize the chance of kernel damage when harvesting high-moisture corn (greater than 25 percent moisture), an insert can be installed in the auger floor that will close the gap between the floor and the auger flighting. While not required for use with the insert, a second kit can be installed that provides a lower auger position to further enhance grain quality.

NUMBER	DESCRIPTION	TYPE	LIST	NOW
Auger Floor Insert:				
BXE10960	606C, 706C Series (6-row, 30")	John Deere	\$ 814.55	\$ 749.39

Final Drive Grease Line Kit

Greasing final drives on combines can be difficult to access, especially with dual wheels. This new kit includes new grease fittings and hoses to allow greasing the final drives in a more convenient location.

NUMBER	DESCRIPTION	LIST	NOW
BXE11469	Grease Line Kit	\$298.10	\$274.25

Belt Pickup Unit Crop Shield

New hardware and bracket kit BXE11472 to retrofit current crop shield BXE11257 to older 615P headers. Reduces grain loss over the back in easy shelling crops like canola, reduces buildup of residue on top of the feederhouse, prevents seeds from hitting the combine windshield and made from clear plastic to maintain visibility while harvesting.

NUMBER	DESCRIPTION	LIST	NOW
BXE11472	Hardware Kit	\$ 66.00	\$ 60.72
BXE11257	Crop Deflector	\$752.40	\$692.21

Getting out of bed in the morning for unrewarding work, job instability, or little opportunity for advancement is rough. If that story hits close to home, then consider starting a new chapter in your life as a **service technician** at a nearby John Deere dealer.

Look Forward To Work For A Change

Here, your hard work and technical aptitude will enable you to experience a **rewarding career**, **job stability** and **advancement opportunities** by contributing to the overall success of the farming industry.

As a service technician, you'll be taught how to solve problems related to agricultural machines, equipment and operations, while earning **competitive wages** and **benefits**. Farmers across America need dependable, dedicated John Deere technicians to keep them up and running everyday.

Are you up for giving them a hand?

Guidance & Machine Control

AutoTrac™ Integrated Machine Kits and GreenStar™ Ready Kits make it easy for you to be Precision Ag-ready when the time arrives. The AutoTrac Machine Kits include the appropriate machine steering controller when necessary and AutoTrac Ready accessories. The display, receiver, and software to complete the system are sold separately. These field-installed kits are an integrated guidance solution for John Deere machines and are compatible with the GreenStar 3 or GreenStar 2 system components. Gain the edge and get the results you want and need with genuine John Deere AMS components.

RE596959

Auxiliary Power Adapters for 7R and 8R/8RT/8RX (with new cab)

Two new solutions are available to provide an octagon style power outlet for connecting displays, monitors, and other electronic devices. The first is a 3-pin octagonal power adaptor that connects to the 3-pin round convenience outlet. The second option will retrofit a power strip with 6 octagon style outlets same as what was available in 7- and 8-Series tractors prior to the new cab design.

NUMBER	DESCRIPTION	LIST	NOW
Adapter for 1 Octagon Outlet Plug			
RE596959	3-pin Octagonal to 3-pin Round Convenience Outlet (flat pins) Single Device Adaptor	\$ 34.39	\$31.64
6-way Power Strip and Mount			
RE596958	6-outlet Octagonal Powerstrip with Pre-installed Round Convenience Outlet (flat pins)	\$ 58.88	\$54.17
BRE10575	Mounting Rail, C-pillar 1750 cab	\$102.30	\$94.12

Scan for more information

Foot Rests – Retrofit Kit

Kick up your feet and drive it like a boss with easy to install foot rests. Kit BRE10471 adds two forward facing risers and foot rests to the cab (no drilling or welding required). These custom cast iron risers are designed for this cab series, and bolts into existing locations used to mount the steering column to the cab frame. Kit BRE10458 fits 7R, and 8R/8RT/8RX with the updated new cab and contains 3 foot rests. These foot rests are helpful when operating on steep downhill grades, sidehills, or watching towed implements. Complete kits include all parts and hardware.

NUMBER	DESCRIPTION	LIST	NOW
BRE10458	MY20 and newer 7R, 8R/8RT/8RX (with updated cab), MY22 9R/9RT/9RX.	\$112.20	\$103.22

Scan for more information

LED Beacon – Retrofit Kit

This kit completely eliminates the rotating beacon assembly. The riser system retains the approved DOT height requirements and includes a patent pending fold and lock "breakaway" system. This fold and lock system helps protect the beacon from being damaged due to height limitation, folds out of the way by hand and can easily be unfolded when needed. This LED beacon eliminates the need to replace bulbs, motor belts, or broken/foggy domes. Kit includes harness, foldable riser, and LED beacon. Install requires existing beacon harness, cab switch, and mounting post. Note: If tractor already uses two beacons, order two LED retrofit kits.

NUMBER	DESCRIPTION	LIST	NOW
RE596638	MY11–MY20 7R Tractors (excluding new 2020 cab design), MY09–MY20 8R and 8RT Tractors (excl. new 2020 cab design), MY12–MY22 9R/9RT/9RX Tractors Also fits: 7X20, 7X30, 8X20, 8X30, 9X20, and 9X30	\$112.21	\$103.23

7R/8R Greaseable Hitch Pins – Retrofit

These pins can be universally used in six locations on the rear hitch. The greaseable hitch pins can provide extended life with proper lubrication vs the prior non-greaseable design.

NUMBER	DESCRIPTION	LIST	NOW
BRE10500	MY11–MY20 7R Tractors (excluding new 2020 cab design), MY09–MY20 8R/8RT Tractors (excluding new 2020 cab design)	\$279.40	\$257.05

Wide Angle Mirrors

See the benefits from a wider range of rear visibility with wide-angle mirrors. Regardless of how the tractor came equipped, these kits will upgrade existing mirrors with wide angle lenses and a standard mirror. This upgrade includes power extending arms, power rotating head, and heated lenses. The kit provides both mirrors for the left and right side of the tractor.

NUMBER	DESCRIPTION	LIST	NOW
BRE10470	MY14–MY19 7R and 8R Wheel Tractors. Full electric operation and kit includes LH and RH Mirrors. (not compatible with 8RT, 9R, 9RT, and 9RX models)	\$1,199.00	\$1,103.08

AC Compressors

When things heat up and you need to replace your AC compressor, make sure you talk to the experts at your John Deere dealer. Many aftermarket offerings are automotive-style compressors and not meant for off-road applications. Compressor offerings from John Deere include original equipment new compressors, John Deere Reman compressors, and A&I Products. John Deere Reman compressors are remanufactured back to the original John Deere specifications. A&I Products offer AC compressors without the oil so they can be used in either R12 or R134a applications.

Receiver Dryer

The receiver/dryer is designed to remove moisture from the air-conditioning system. Over time, it will become saturated with moisture. Moisture combines with refrigerants and creates acids that accelerate the corrosion of internal component parts. Therefore, if an air-conditioning system has been in service for any extended period of time and is opened for service, it is wise to replace the receiver/dryer.

Water Pumps

Water pump seals have two mating surfaces that take a lot of abuse and are susceptible to wear and failure when exposed to contaminants. John Deere OE water pumps use hard tungsten carbide on both seal surfaces to provide maximum protection and component life. The seal face is scratch resistant and also has excellent thermal conductivity to dissipate hot spots.

John Deere Reman water pumps are remanufactured to the current John Deere specifications. The Reman pumps are completely disassembled, and bearings and seals are replaced and tested to verify integrity. In addition to the OE and the John Deere Reman offerings, your dealer also carries A&I Products water pumps, which offer a quality aftermarket product at an economical price.

Track Belts

Track belts are worn-out when the tread bar is 1/2" or less in height, cables are protruding from the carcass, or drive lug wear exceeds 50%. A selection of track belt options are available for your tractor. The 2500 Series track belt is the lowest cost option and a good choice for older tractors used less than 500 hours per year. The 3500 and 4500 Series track belts are a better quality belt than the 2500 Series and a better choice for tractors used 500 to 1000 hours per year. The 5500 and 6500 Series track belts are heavy-duty belt options providing great durability and recommended for tractors used more than 1000 hours per year or in harsh work environments. Note: this is a brief description about the track belt Series differences for more complete details and to determine which belt will work best for your tractor application please contact your local John Deere dealer. The track belts listed below are only a small sample of the track belt selections available for two and four track tractors.

Track Tractor Mid-Rollers

If it's time to replace your track mid-rollers, make sure you talk to the experts at your local John Deere dealer. They carry a full line of track and undercarriage replacement parts. Rubber replacement mid-rollers are an economical option and are a good choice for tractors that are not in heavy transport conditions. Poly mid-rollers have a higher heat resistance and are the best choice for narrow tracks or machines that are roading under high-load conditions. **Now Available John Deere Reman polyurethane mid-rollers. This lower cost option is built and tested to John Deere specifications.**

John Deere Reman Mid-Roller Benefits

- Uses original OEM steel hubs
- We use the same polyurethane molding process on Reman and new OEM wheels.
- 12-month parts warranty

Hood Grab Handles for 9R Tractors

This retrofit hood handle kit improves the ergonomics of the 9R Series Tractor hoods. Although the kit does not change the weight or spring tension of the hood, it provides hand grip locations to open and close the hood during maintenance tasks and service. These handles have a metal backing plate and are placed at positions to more effectively maneuver the hood on 9R Tractors. This grab handle kit was inspired by the model year 2022 9R hood lift redesign, improves ergonomics to open the hood and is compatible with MY2012 – Early 2022 9R, 9RT, and 9RX tractors.

NUMBER	DESCRIPTION	LIST	NOW
BRE10599	Hood Handle Lift Kit	\$103.40	\$95.13

CAT 4 Cab Air Filter System 7–9 Series

The John Deere CAT IV air filtration system is engineered to reduce exposure and provide greater protection against harmful substances such as particulates, aerosols, and vapors that are often invisible to the human eye. The John Deere filter elements used in this CAT IV system provides a unique combination of industry-leading medias that meet global requirements of defined protection categories. This CAT IV filtration system enables particle separation PTI fine dust of 99 percent or more, vapor/gas absorption of 500 ppm and C6H12 10-ppm breakthrough of 70 minutes or more, and aerosol separation with DEHS/DOP of 99.95 percent or more.

NUMBER	DESCRIPTION	LIST	NOW
BRE10588	CAT IV Cab Filtration Kit	\$1,883.20	\$1,732.54

NOTE: Fits MY23 and newer 5ML cab tractors

Replacement Seat Cushions

Our seat covers are designed for maximum operator comfort—with a durable, thick-foam backrest and no seam to dig into the operator's legs. Compare our quality and prices to see how we outrank locally manufactured new and remanufactured seats.

ExactRate™ Tractor Tank Kit for 8RX Tractors

Now available industry exclusive 1000-gallon fertilizer tanks for field install on MY20—Current 8RX tractors. Cab entry and egress are unchanged and minimal visibility is lost around the tractor with fully integrated tank components. The complete system includes tanks, lighting, integrated transfer pump, rinse and agitation, fittings and hoses. Installation requirements include 18-in. or 24-in. track belts, track spacing set at 120-in., MY20 and MY21 require a rear axle spacer kit. A front fill connection kit is also available to provide convenient access to fill the ExactRate™ tanks.

Trackman® for John Deere® 8RT

As recently announced, we introduced an additional supplier for our Track Belt business, Loc Performance. With this partnership, we will continue to produce top performing tracks geared to handling high horsepower and traction to pull heavier loads. Loc Performance's Trackman® for John Deere® 8RT has been engineered for durability and longevity with usable tread rubber for long life; please click the link for more details. Loc Performance will continue to deliver advanced innovations in today's track business with its fully molded guide lugs & tread bars, and 50% more wires per inch over previous designs. Trackman tracks have been around since the release of the original 8x00T tractors as the factory supplier. Now under the ownership of Loc Performance, Trackman and track belts are available through service for all 8RT narrow track tractors. Work with confidence with the Trackman consistent rubber thickness, and wide center design for better clean-out.

With great performance comes great warranty! Loc Performance's Trackman Rubber Track warranty covers against material and/or workmanship defects. See below for a list of John Deere's Product Code matched with the most suitable Trackman option.

The power of Choice

John Deere OE Engine Overhaul Kits

Here are some examples that make the John Deere OE engine overhaul kits the “Best” choice. John Deere liners are heat-treated to a precise hardness and depth to increase durability and life. Proper heat-treat hardness provides a hard surface with good wear characteristics. Pre-assembled piston liner kits eliminate the chance for broken or improperly installed piston rings, which can cause power loss, oil consumption, and excessive wear, leading to seized pistons and potentially premature engine failure. Fiber-reinforced piston bowl rings provide more than twice the yield strength of aluminum alloy and increase the operating pressure and temperature range without the risk of cracking. John Deere uses two layers of metal alloy on the ID face of the main bearings to protect them from the constant rotational forces of the crankshaft.

A&I Engine Overhaul Kits

If you're looking for a quality offering at an economical price, we also offer A&I Engine Overhaul kits for John Deere and competitive machines. A&I works with quality suppliers to ensure that all parts included in an A&I engine kit perform and fit as they were meant to. Our engine kits offer: cam ground pistons, ni-resist inserts, spun cast liners, and cylinder components designed as a package. Note: In-Frame Kits typically include Pistons, Liners, Rings, Rod Bearings, & Gaskets and Major Kits typically include Pistons, Liners, Rings, Rod Bearings, Rod Bushings, Rod Capscrews, Cam Bearings, Main Bearings, Thrust Bearings/Washers, Crankshaft Seals, and Gaskets.

Electronics Repair & Return Program

Skilled technicians. Quick turnaround. Competitive pricing. It's what you need when electronics go on the fritz and what you get from Electronics Repair & Return by John Deere Reman.

Now available, this convenient service offers you a true John Deere solution for the OEM repair of some of your most important electronic components. And better yet, it's all backed by a valuable 12-month Limited Warranty** that's sure to please.

Turn to John Deere for electronics repair and be rewarded with fast, reliable service to get your machine up to speed again.

**The John Deere Reman Electronic Repair & Return 12-month Limited Warranty covers specific repairs on each component. John Deere Reman will repair or replace unit during the applicable warranty period but is not responsible for any labor costs associated with the removal and installation of the components.

Announcing an even better value story. We have your back.

John Deere Reman is proud to announce that all John Deere Reman-branded **Starters and Alternators** now come with a **STANDARD** 2-year Factory warranty. Dealer-installed* or customer-installed*, you will have peace-of-mind that John Deere has your back.

2 years = Two planting and harvesting cycles. All covered by a factory warranty. Reman Tough.

DiamondTough™ Baler Belts

Work harder, smarter, longer

John Deere DiamondTough baler belts are carefully crafted to:

- Handle heavy shock loads
- Maintain consistent belt length
- Offer improved reliability and belt life, minimizing downtime
- Be more puncture- and tear-resistant than other belts
- Warn you when it's time to replace them

Better inside

Patented triple-weave design incorporates nylon, polyester, and monofilament cords. DiamondTough belts are more puncture- and tear-resistant, improving belt life and reducing downtime.

Better outside

DiamondTough baler belt's self-cleaning, three-step tread design offers benefits at every layer, including wear indicators.

- **Top step:** Provides excellent stem contact during initial wear stages.
- **Middle step:** When the top step is worn, bale starting may be adversely affected in certain crops.
- **Bottom step:** When the top two steps are worn, replace the belt.

Visit your local John Deere dealer to find the right fit for your round baler.

Longitudinal Rip Test

The belt sample is attached to the top jig of the test machine using the holes. Then a 1" steel rod is pushed through a hole in the center of the belt and is attached to the bottom jig of the test machine. Tension is applied to pull the 1" rod through the bottom portion of the belt in the longitudinal direction of belt travel.

This test is an excellent indication of rip resistance induced by foreign objects into the belt. High strength warp and fill cords in John Deere DiamondTough Belts combine to create superior rip resistance.

Belt Laces and Pins

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
AE53297	Clipper Lace	330, 335, 375, 410, 430, 435, 500, 510, 530, and 535	\$ 6.47	\$ 5.50
E70966	Clipper Lace Pin	330, 335, 375, 430, 435, 530, and 535	\$ 1.39	\$ 1.18
AE53298	Mato-Plate Type Lace	430, 435, 530, 535, 6, 7, 8, 9, and Zero Series Balers	\$17.99	\$15.29

DiamondTough™ Baler Belts

Introduced with the John Deere 8 Series balers, DiamondTough baler belts feature:

- 1) Nylon-fill cords that provide superior puncture and tear resistance, along with excellent fastener-holding strength
- 2) Excellent resistance to punctures and tears by inserting heavy-duty polyester straight-wrap cords between the fill cords
- 3) Polyester surface wrap cords that resist abuse and increase flexibility over small baler rollers
- 4) Nylon binder wrap cords that help promote fabric integrity and abuse-resistant properties

Advanced Hay, Straw, and Silage Tester

This newly advanced Hay, Straw, and Silage Tester is the most efficient probe on the market. The 20" stainless steel probe and tip provides accuracy, versatility, and durability. The SW007305 will measure push force to determine whether it's a high- or low-density bale, then adjusts the moisture result for more precise accuracy.

Features:

- Measures 8–72% moisture content
- Temperature range 32–185°F (0–85°C)
- Automatic Density Compensation
- Choice of hay or straw bales, separate mode for silage
- Memory can store results up to 64 bales with a total of 1,000 savable moisture and temperature readings
- Continuous reading as you probe bale

NUMBER	DESCRIPTION	LIST	NOW
SW007305	Hay, Straw, and Silage Tester	\$376.37	\$353.79

Windrow Hay Moisture Tester

Now test hay **before you even start baling** with the portable Windrow Hay Moisture Tester from John Deere. You no longer have to make a bale and use a probe-style tester to determine if your hay is ready. Instead, just add loose hay to a five U.S.-gallon bucket, press the tester into the hay and get a quick, accurate reading. See results in 30 to 60 seconds. Measuring range: 13- to 70-percent moisture. Accuracy range: +/- 2 to 4 percent.

NUMBER	DESCRIPTION	LIST	NOW
SW07140	Windrow Hay Moisture Tester	\$353.13	\$331.94

TEACH YOUR CURRENT EQUIPMENT NEW TRICKS.

Each new crop season begins with a plan. Ordering your seed. Focusing on next year's bottom line. Counting down to planting season. Hot summer days spent spraying and those endless nights enjoying that golden view at harvest. Your equipment has plenty of stories to tell. So when you have a tried-and-true piece of hard iron already on your farm, wouldn't you want the newest in technology for it?

Get the latest in technology when you invest in a performance upgrade kit. Similar to purchasing a new product from the factory, a performance upgrade kit provides you the confidence you need with a new serial number, a 1-year warranty, and a much lower price than buying brand new.

Contact your local John Deere dealer for all your performance upgrade needs.

Talk to your John Deere dealer to learn what
Performance Upgrade Kits options are right for you.

JohnDeere.com/Upgrade

PERFORMANCE UPGRADES

CUSTOMIZE

Our trained technicians will help you determine the best upgrade solution for your operation.

INSTALL

Add the latest technology and replace worn parts at the same time.

GROW

Strengthen ROI, reduce input costs and improve yields* with new-to-you performance.

*Internal comparison between ExactEmerge and MaxEmerge 5e row units and components with original MaxEmerge row units and components; between John Deere sprayers without ExactApply with John Deere sprayers equipped with ExactApply. Individual results will vary depending on field and growing conditions.

Dura-Flex Bearings

John Deere Dura-Flex bearings continue to offer superior quality and consistency that is unmatched by aftermarket will-fit bearings. Introduced in 2005, they are used on disk gang assemblies and rolling baskets up to the 2600 series disks.

Dura-Flex Bearing Features:

- Includes 2-year warranty
- Built using a ball ridging, one-piece, molded nylon cage for perfect alignment
- Engineered with a thicker inner bearing race that creates a stronger cross section to withstand tough loads
- Designed with a heavy-duty bearing so the ball is harder than the rings
- Provides total clearance between rings and rolling elements for optimal load distribution and free rotation to allow for thermal expansion
- Prevents premature bearing failure with smooth rolling bearings
- Contains a chamfer in the lubrication hole to ensure proper grease flow

NUMBER	DESCRIPTION	APPLICATION	LIST
AA28184	Dura-Flex Bearing	Disks: 210, 215, 220, 230, 235, 621, 627, 630, 637 (rigid standards) Seedbed Finisher: 200 Mulch Finishers: 722, 724, 726, 2310, and 2330 Mulch Tillers: 710, 712, and 714 Field Cultivators: 980 and 2210 Air Disk Drill: 730 and 730LL	\$29.88

Take Your Pick

All John Deere spindles are manufactured in John Deere facilities utilizing next-generation heat treat controls to create the most consistent heat-treated spindles on the market. Plus, 25 unique quality checks at 7 manufacturing points ensure the highest quality product.

For average annual usage and picking conditions, the John Deere PRO Series Spindles offer a reliable value-priced option. For higher annual usage or harsh picking conditions, Pro-XL™ Spindles offer up to 50 percent longer life than the John Deere PRO Series Spindles.

Individual spindles and convenient spindle assemblies are now available for both PRO and Pro-XL spindles ... take your pick.

Spindles

- John Deere controls the entire manufacturing process including heat treatment, chroming, and quality inspections
- A unique data matrix on each spindle ensures quality control, consistency, and traceability
- Three sets of 12 barbs per flute for efficient picking
- Case hardening ensures the spindles will break and not bend when striking solid objects to minimize damage to the picking units

NUMBER	STYLE	APPLICATION	LIST	NOW
PRO:				
KK40195	Right-hand	All John Deere cotton pickers	\$5.64	\$5.19
PRO-XL:				
KK28390	Right-hand	All John Deere cotton pickers	\$6.35	\$5.84

Spindle Assembly

Replacing worn spindles cuts the chance of stripping drive gears and damaging the picker bar. **Reduce downtime by using the all-in-one, factory-made spindle assembly.**

NUMBER	STYLE	APPLICATION	LIST	NOW
PRO:				
AKK24309	Right-hand	All John Deere cotton pickers	\$9.41	\$8.66
PRO-XL:

Doffers, Doffer Parts, and Doffer Assemblies

John Deere urethane doffers greatly reduce contamination and offer increased wear life. They're specially designed for balanced, smooth operation—even at high speeds. Our doffers are precision engineered to reduce the need for grinding or shimming and are heat- and oil-resistant. Save time with ready-to-install doffer assemblies straight from the factory!

NUMBER	DESCRIPTION	MODEL	LIST	NOW
AN406038	Urethane Doffer	CP690 cotton pickers (hollow-core shaft)	\$ 13.13	\$ 12.08

Moistener Pads

These specially designed pads feature an X pattern to ensure proper moisture distribution on picking spindles operating in all types of conditions. Precise fins provide an even flow of cleaner from the pad to the spindle, ensuring optimum picking performance. Pads are made of long-lasting urethane. A tight fit keeps debris from plugging the moistener system or tearing the pad off during harvest.

NUMBER	DESCRIPTION	LIST	NOW
N275607	Urethane Moistener Pad	\$2.77	\$2.55

Pressure and Scrapping Plates

Our pressure plates, pressure plate extensions, and scrapping plates provide a profile that will keep the cotton plant in the picking zone longer, giving the spindle more opportunity to harvest the cotton off the plant.

Cotton Stripper Bats and Brushes

Worn bats and brushes leave more cotton in the field and less in your module. To ensure peak harvesting efficiency, you'll want to monitor their condition and replace worn components. John Deere cotton stripper bats and brushes are manufactured from the highest quality raw materials. Their steel channels are electro-galvanized to prevent rust. Finally, products are thoroughly inspected to ensure quality.

NUMBER	DESCRIPTION	LENGTH	LIST	NOW

Active RMB Belt Cleaning Brush

The CP690 offers an optional active rotating belt cleaning brush that provides improved RMB belt cleaning in tougher, higher-moisture harvesting conditions.

NUMBER	MODEL	LIST	NOW
BKK10319	CP690, CS690	\$3,740.00	\$3,440.80

Spring Tension Feeder Belt Kit

Proper adjustment of the cotton feeder belt is critical for performance and reliability of the round module cotton harvester. If the feeder belt tension is set too loose, the belt can slip. If it is set too tight, damage to the lace and/or belt can occur. The spring tension feeder belt kit makes it easier to properly set the feeder belt tension during machine operation.

Harvest Identification, Cotton Pro

Harvest Identification, Cotton Pro is the next generation of round module tracking. Features include the documentation of module moisture, weight, editable features, and other features. Cotton module weighing provides on-the-go cotton module weights to the cab display that enables easier yield monitor calibration for more accurate harvest yield data and agronomic decisions. Cotton module moisture sensor provides a vital role in preserving cotton quality and maintain high quality standards.

Kernel Processor Rolls

The John Deere kernel processor is induction-hardened rather than flame-hardened, like many competitors' rolls. What does that mean to you? Hardening is much more consistent, resulting in a longer life and fewer repair costs. The hardening zones of a John Deere roll are shown in the illustration to the right.

YOU STEPPED UP BEFORE.

Consider doing it again.

Through the John Deere Military Hiring Program – which is open to **active duty, Reservists, veterans, National Guard, and spouses** – you can make a difference to farmers with a position at a John Deere dealership. Self-paced, online training¹ – at **no cost** to you – is available in electrical, hydraulics, engines and parts/sales. Additionally, **SkillBridge** and **Army CSP** internships are offered at some participating dealers.

Competitive wages, excellent benefits and job stability – along with plenty of room for advancement – are all part of this career path. John Deere dealerships need **dependable, dedicated** people to serve farmers who help feed and clothe us all.

Are you ready to step up?

Learn more at **JohnDeere.com/JDMHP**.

**WATCH MILITARY
HIRING VIDEO**

¹Certificate is awarded from John Deere University upon successful program completion.

Internal Rolling Basket Scrapers

Avoid plugging in wet conditions with new internal rolling basket scrapers for John Deere 2720 and 2730 rippers. The basket scrapers allow the operator to keep the baskets on the ground 100 percent of the time which results in more uniform field finish.

Rotary Hoe Wheel

Sixteen curved tines on each wheel explode soil crust and uproot weeds. These wheel fit John Deere Rotary Hoes and can also fit Yetter, M&W, and Hiniker rotary hoes.

- Triple-sealed bearing for long life.
- Spoon-formed tine for excellent aeration and weed eradication.
- Accurately peened rivets strengthen wheel construction for long life.

NOW AVAILABLE FOR C650 & C850 AIR CARTS

Ensure durability over the life of your air cart with stainless steel solutions from A&I Products at your John Deere dealer. Proven in 1900 and 1910 Air Carts, options are now available for C650 & C850 applications.

Constructed using non-corrosive Stainless Steel and High Abrasion Plastic extends the longevity of the product over time especially when used with fertilizer.

The Single-Wall design eliminates cavities for material to collect and is easier to clean out with easy-access cleanout doors.

Air Seeder Parts are Made in the USA using corrosion-resistant 304-Stainless Steel and High Abrasion Wear Plastic. Components are built with CNC lasers, press brakes, and mills to ensure consistency.

ProSeries™ Seed Opener Performance Upgrade Kits for 60- and 90-Series Openers

The ProSeries Opener offers agronomic advantages and extended wear life compared to the current 90-Series openers. For 60-Series openers, to be compatible, seed tubes must also be upgraded to the 90-Series seed tubes.

Features include:

Seed Boot – A narrower, tighter fit to the disk results in less soil throw for better seed-to-soil contact and extended wear life.

Press Wheel – Narrower and more flexible press wheel improves overall seed-to-soil contact for more even emergence, plus upgraded double-row ball bearing extends service life.

Serrated Closing Wheel – Improved closing system when seeding in harder, drier conditions. The notches on the wheel break up the drier soil for better germination.

Seed Tab – Improved material for longer wear life, angled and more flexibility in the seed trench results in less seed bounce for more consistent seed placement.

Closing Spring – Easier adjustments.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW

Separate Fertilizer Placement Openers for 90-Series

Features include:

Separate Fertilizer Placement (SFP) sealing wing allows for better sealing of NH₃ in the ground. Newly designed sealing plates and scrapers improve the NH₃ sealing capabilities of the SFP opener when compared with older components. 457.2mm (18-in) opener blades operate at a 5-degree angle, resulting in a narrow trench with less soil disturbance.

Kit contents include: Scraper, Sealing Plate, Disk Opener, Hardware, (smooth or serrated closing wheel is not included).

Meters, Rollers, and Tuning Rings for John Deere Air Seeders

Use the low meter roller for seeds such as flax, canola, and alfalfa. The medium roller is best when planting wheat, barley, canola, and small soybeans up to ¼ inch in diameter and with medium rates of fertilizer. The high rate roller is for high rates of fertilizer and large soybeans bigger than ¼ inch in diameter. The very high rate roller is best used when planting barley and oats with beards, large seeds such as garbanzo beans, and with very high fertilizer rates. Fine tuning rings reduce the amount of product available to meter for increased accuracy.

Dodge downtime

with John Deere Connected Support™

JohnDeere.com/ConnectedSupport

What's more frustrating than downtime? Downtime that could have been avoided.

Keeping you up and running is the driving force behind John Deere Connected Support*. Our suite of connectivity software enables you and your dealer to **remotely monitor** and **proactively service** your tractor, combine or sprayer to increase uptime. Offering such tools as Service ADVISOR™ Remote, Expert Alerts and Remote Display Access, our **exclusive technology** puts your fingers on the pulse of your machine 24/7.

Contact us today to get connected.

*Connected Support comes factory installed on **newer machines** (MY14-Current) and is available for field installation on **older machines** (MY11-MY13).

Wheel and Crop Shields

Wheel Motor Shields: These shields help keep the crop and mud away from the inside of the wheel motor for easier cleaning and added protection from field debris.

Crop Shields: Strong, durable, polyethylene wheel shields are available for 320, 380, and 420 tires to help prevent damage to crops.

SOLUTIONS FOR YOUR SPRAYING NEEDS

High-flow

PRE- AND POST-EMERGE FERTILIZER

- Wide 140° angle allows low boom height minimizing corrosive effects on equipment
- Tapered wide-angle fan style promotes uniform nutrient application

LIST: \$11.54

NOW: \$10.62

Ultra-low-drift

PRE- AND POST-EMERGE HERBICIDE

- 60° thick spray pattern front to back and 120° wide spray angle enables lower boom height to reduce drift
- Air-induced droplets minimize drift potential without sacrificing coverage

LIST: \$10.18

NOW: \$9.37

3D

ALL-PURPOSE, PLANT HEALTH AND CONTACT HERBICIDES

- Tight, inclined spray pattern delivers 3-dimensional coverage on hard to hit targets
- Delivers 50–75% less drift compared to flat fan nozzles

LIST: \$8.09

NOW: \$7.44

Low-drift Max

Low-drift Twin

Ultra-low-drift Max

POST-EMERGE PLANT HEALTH

- 120° wide and 60° thick pattern provides optimum coverage while maintaining overlap at low boom heights
- Dual pre-orifice nozzle reduces drift with Coarse, Very Coarse and Extremely Coarse droplets

LIST: \$13.42

NOW: \$12.35

- Twin 30° forward and rear-facing dual angles for superior coverage
- Delivers Medium and Coarse droplets across wide operating range and sizes to meet speed/rate needs

LIST: \$12.05

NOW: \$11.09

- 130° spray angle allows lower boom heights to reduce drift and prevent pattern collapse when using drift-reduction adjuvants
- Delivers Extremely Coarse and Ultra Coarse, air-filled droplets for 90-95% drift reduction compared to standard flat fan nozzle

LIST: \$11.20

NOW: \$10.30

Download the EquipmentPlus™ App and use the Nozzle Select Tool to purchase spray nozzles, right from your phone.

High-Pressure Auxiliary Filter Upgrade Kit

Enhance hydraulic filtration capabilities with John Deere's new high-pressure auxiliary filter. This filter enables more oil to be filtered with each pass through the hydraulic system. This upgrade is available from model year 2014 through model year 2019 on the following models: R4040, R4038, R4044, R4045, and R4060

Features:

- Designed to keep oil and auxiliary powered components clean
- Captures contaminants before they can cause damage within the sprayer's hydraulic system
- Adds an additional layer of protection for components such as steering, boom valve and functions that work off the auxiliary pump

NUMBER	DESCRIPTION	LIST	NOW
BKK11240	High-Pressure Auxiliary Filter	\$1,210.69	\$1,113.83

ForceField Centrifugal Pump

Superior wet-seal protection for today's most demanding spray conditions.

- Wet-seal technology protects the seals by using a barrier fluid to keep them cool and lubricated, even while the pump is running dry
- Actively maintains a positive pressure differential between the chamber barrier fluid and the pumping solution, which prevents chemical bonding of the seal faces, resulting in increased life and maintenance-free operation
- Protects seal against dry run failure
- Minimizes sprayer downtime and improves productivity

Ask us how the Forcefield pump provides worry-free sprayer operation.

Silicon-Carbide Seal Kit

- More resistant to abrasion than ceramic
- More likely to survive dry runs than ceramic
- Silicon-carbide seal faces work together to provide excellent thermal conductivity for dry running
- Pressure-balanced design allows for lighter spring loads, lower running temperatures, and longer seal life
- More likely to survive dry runs than ceramic
- Silicon-carbide seal faces work together to provide excellent thermal conductivity for dry running

AN206043	Silicon-carbide Seal Kit	\$160.64	\$147.79

Express Nozzle Body End Caps

Improve system hygiene by removing the dead zone on the end of the boom pipes, reducing air and residue buildup.

- Allows air to escape through the nozzle body, reducing turn-off/turn-on times by up to 85%
- Removable end plug allows easy access for boom cleanout

NUMBER	DESCRIPTION	LIST	NOW
PM74333314	1-in. Express Cap Fitting w/ Nozzle Body End Cap (high flow)	\$46.78	\$43.04
PM74333316	1-in. Express Cap Fitting w/ Nozzle Body End Cap (standard)	\$46.78	\$43.04

Express Flush Valves

This valve allows quick flushes of the entire boom section with a turn of a handle. Purchase the Express Flush Valve alone or installed on the Express End Cap.

- Easy to use valve does not require any tools to open flushing mode
- Reduces flush time by 5 seconds per valve compared to standard Express End Caps alone
- Compact design limits the length it extends beyond the last nozzle body to fit most booms

NUMBER	DESCRIPTION	LIST	NOW
PS74333318	Express Flush Valve – high flow	\$39.34	\$36.19
PS74333320	Express End Cap with Express Flush Valve Installed – high flow	\$57.93	\$53.30

Your John Deere dealer can build hydraulic hoses in minutes.

John Deere hose assemblies built to OEM specifications. Ask your dealer about hoses for any brand of equipment.

We follow through to deliver uptime for you.

Stay up and running, and eliminate the worry about contaminants entering your hydraulic system. Trust your John Deere dealer to deliver complete solutions, like Ultra Clean, that ensure contaminants are completely removed from new hose assemblies.

Ask your dealer how Ultra Clean means uptime.

SCV Coupler Conversion Kit 20, 30, and 40 Series Tractors

Convert traditional JD couplers to ISO couplers and add the convenience of connect-under-pressure by installing the ReNew2 Conversion Kit. Installs neatly in place without removing the original SCV housing and eliminates the need to use the locking levers. Includes color coded dust caps and plugs to keep contamination out of the couplers when not in use.

Hydraulic Multiplier and Add-On Valves

Add additional hydraulic outlets to prime movers economically. Hydraulic multipliers are transparent to the hydraulic system and work safely on all makes of equipment. They're easy to operate and provide a no-hassle solution to mobile equipment hydraulic shortages. These units are 100% final product-performance tested, and components are ISO-9002 certified.

JOHN DEERE

Keep your competitive equipment and trucks rolling with one-stop shopping.

Whether red, blue, or another color, you can find maintenance products for your competitive equipment and trucks at your John Deere dealer. With Plus-50™ II engine oil, Cool-Gard™ II coolant and Fleetguard® filters, we have high-quality products available to keep your machines running. Contact your dealer today!

One Engine Oil For All.

It takes a special breed of oil to keep engines running in off-road conditions. That's because Plus-50™ II Oil is specially formulated to keep engines running smoothly and efficiently in extreme off-road conditions. Tractors, Semi trucks, UVs, and gasoline engine vehicles. Let John Deere Plus-50 II Oil be the one ENGINE oil for your farm. Talk to your dealer today.

John Deere Plus-50™ II Oil. Keep Running.

JohnDeere.com/Oil

JohnDeere.ca/Oil

Antifreeze/Coolant

Cool-Gard™ II High Performance Long-Life, Heavy-Duty Formula.

- Formulated for up to 6-years/6,000 hours* in cooling systems of diesel and gas engines
- Supports advanced engine technology
- Protects against corrosion and deposits
- Extends water pump life and prevents liner cavitation
- High thermal and oxidation protection
- Ready-to-use 50/50 premix formula for freeze protection down to -34°F (-37°C)
- Contains bittering agent to help discourage accidental ingestion
- Less toxic (PG) propylene glycol available for use around animals

Bulk Oil

Save time and money with John Deere bulk oil. If your fleet is using 330 gallons (1,250 liters) or more of a single product in a year, the John Deere bulk oil program can benefit your operations. Reduce your handling cost for oil, along with the risk of contamination, while adding the convenience and performance benefits that come with John Deere bulk premium lubricants. Visit your local John Deere dealer and ask how you can have Premium John Deere Plus-50 II 15W-40 engine oil and Hy-GARD™ hydraulic/transmission oil bulk delivered right to your location.

Plus-50™ II SAE 15W-40 & SAE 10W-30 API CK-4/SN Engine Oil

Plus-50 II SAE 15W-40 and 10W-30, is made with a unique additive system that offers excellent protection from deposits and wear. It exceeds API service classification CK-4/SN and John Deere Severe Off-Road Dyno test. It's excellent for diesel engines!

- Excellent product for current and older engines
- Formulated specifically to inhibit engine wear, corrosion, sludge, soot, varnish, and oxidation
- Extended drain intervals up to 500 hours in a John Deere engine, using a John Deere filter and ULSD diesel
- Proven performance in low-emission IT4 and FT4 engines
- Full-fleet solution and fully backwards compatible
- Tested and developed for severe off-road applications

Plus-50™ II Full Synthetic SAE 0W-40 & 5W-40 API CK-4/SN Engine Oil

Plus-50 II Premium Engine Oil SAE 0W-40 and 5W-40 are full synthetic formulations which provide excellent performance for customers who operate in extremely cold or hot conditions and want to maximize engine life performance in modern engines. Use John Deere Plus-50 II Premium Engine Oils in your equipment with confidence as they are completely backwards compatible for older engines.

Transmission and Hydraulic Oil

Hy-Gard™ oils are specifically developed to meet the exact requirements of transmissions, wet clutches, wet brakes, and hydraulic systems. Oils not meeting these exact specifications can compromise machine or component life.

Hy-Gard performance tested both in lab and in the field and approved by John Deere engineers to meet the increase demands for performance and protection of transmission and hydraulic systems.

Hy-Gard Oil

Available in 1-, 2 1/2-, 5-, 30-, 55-, and 220-gallon containers.

- Recommended for equipment with common system reservoirs or separate transmission and hydraulic systems
- Exceeds JDM J20C specification

Low-Viscosity Hy-Gard Oil

Available in quarts and 1-, 5-, and 55-gallon containers.

- Use in place of Hy-Gard oil in cold weather
- Exceeds JDM J20D specification

Bio Hy-Gard II Oil

Available in 5- and 55-gallon containers.

- Formulated from conola-based oil
- 94% Biodegradable
- Use in place of mineral-based hydraulic oils

Antifreeze/Coolant

Cool-Gard™ II High Performance Long-life, Heavy-duty Formula.

- Formulated for up to 6-years/6,000-hours* life in cooling systems of diesel and gas engines
- Supports advanced engine technology
- Protects against corrosion and deposits
- Extends water pump life and prevents liner cavitation
- High thermal and oxidation protection
- Ready-to-use 50/50 premix formula for freeze protection down to -34°F (-37°C)

INTRODUCING | USED POWERGARD™ EXTENDED WARRANTY PROTECTION

SOMETHING NEW FOR SOMETHING USED

Your used machine can go from “no warranty” to “under warranty” with Used PowerGard[®] from John Deere. Created specifically for **out-of-warranty, customer-owned machines** (see disclaimer), Used PowerGard – an Inspect & Protect Program – helps to maintain the performance of your older equipment for years ahead. This limited engine-and-powertrain warranty is for used John Deere machines, including:

- Tractors
- Combines
- Sprayers
- Nutrient Applicators
- Cotton Harvesters
- Windrowers
- Self-Propelled Forage Harvesters

Choose from a variety of **flexible terms**, in total months and total hours, and **low-cost deductibles**. Used PowerGard is also available for used machines purchased from participating dealers.

Get peace of mind today. Get Used PowerGard.

¹Qualified customer-owned equipment for a Used PowerGard Plan is limited to tractors **under 10 years old** and **under 5,000 hours** and to combines, sprayers, self-propelled forage harvesters, cotton harvesters and windrowers **under 7 years old** and **under 2,000 hours**. To be eligible for Used PowerGard, your out-of-warranty equipment is subject to certification which includes inspection and fluid sampling. See your participating John Deere dealer for complete details.

JohnDeere.com/PowerGard

John Deere—your hardware headquarters.

See your John Deere dealer for two easy, cost-saving ways to stock up on hardware for your farm and shop:

1) Grab what you need and pay by the pound.

- Bolts
- Fender washers
- Wing nuts
- Plow bolts
- Flat washers
- Nylon nuts
- Carriage bolts
- Lag screws
- And more!
- Lock washers
- Hex nuts

2) Customize your own hardware needs.

New Voyager 7" WiSight® 2.0 Observation System

We're excited to introduce a new Voyager 7" WiSight® 2.0 camera system. It's great for viewing in hard to see places. Ideal for tractors, sprayers, combines, implements, trucks/trailers etc.

Key features and benefits:

- Voyager 7" color monitor
- Increased views by connecting up to four wireless cameras at the same time using single, split, or quad view.
- Waterproof camera
- Excellent low-light performance using infra-red LED

Please note, the plastic bracket included in the kit that holds the monitor is not made for the heavy-duty market. It is intended for light-duty use only.

Customers who wish to use this kit for heavy-duty use should use a ram mount or versa mount. See dealer for suggestions of brackets for heavy-duty use.

Improve performance, increase uptime, and reduce operating costs with our innovative MulchControl attachment. Compatible with High Capacity and Accel Deep™ mower decks for Signature Series tractors, EZtrak™, and Residential ZTrak™ mowers, this attachment does an excellent job of mulching and is easily converted to side discharge or bagging in just a few seconds with the use of a lever conveniently located on the mower deck.

The MulchControl attachment makes mulching a more desirable and practical option, so you can benefit from the advantages of mulching, including:

- A beautiful lawn with less fertilizer use
- Grass clippings that are not blown onto the operator, driveways, or into flower beds
- No need to dispose of clippings

Take control of your clippings with MulchControl from John Deere.

Predator Heavy-Duty All-Terrain Radial Tires

Available for both alloy wheels and steel wheels, this new tire option gives you more function than ever before.

Key features:

- Radial construction provides shock absorption, allowing for a smoother ride
- All-terrain tread pattern balances traction and terrain impact
- Flat profile increases footprint area, reducing ground pressure
- Excellent option for use in hard surface or intermediate off-road applications
- 8-ply rating delivers up to three times the life of Bighorn tires

Gator Utility Vehicle Model Compatibility:

- Optional Upgrade for XUV835E, XUV835M, XUV835R, XUV865E, XUV865M, and XUV865R
- Optional Upgrade for XUV825MS4 and XUV855MS4

80% Premium Ether Starting Fluid

A premium 80% Ether cold-weather starting fluid for all John Deere engines. Produces faster starts and incorporates an upper cylinder lubricant that provides a film of oil on cylinder walls to protect against dry starting.

NUMBER	DESCRIPTION	LIST
RE556468	80% Premium Ether Starting Fluid	\$9.08

Protect your most valuable assets with John Deere paint.

Only from your John Deere dealer.

You already know farm machinery is your largest investment. So get the most out of it today—and for seasons to come—by protecting it with the best paint in the business.

Only genuine John Deere paint gives you the long-lasting, high-gloss finish that better shields your equipment from UV fading, rust, and corrosion. Or whatever else Mother Nature may throw at you.

Pick up a can now at your local John Deere dealer. Better yet... make it two cans.

John Deere Tire Sealant

John Deere Tire Sealant is a proven preventative maintenance tool. Protect your tires against air loss and save money from reduced downtime for the life of your tires.

Premium Series Generators

The PR Series features 3600-, 6000-, 8000-, and 10000-watt generators. All available with a John Deere-branded OHV engine with low-oil shutdown. All are CSA listed and come standard with engine on/off switch, fuel shut-off valve, and a 1-year limited warranty.

All PR-Series models feature

- Total harmonic distortion (THD) less than 6%
- Copper and aluminum windings
- Easy-access and protected control panel with magnetic circuit breakers and GFCI-protected receptacles
- Large low-tone mufflers
- DC charging/battery charging
- Heavy-duty industrial air cleaners for extreme conditions
- 3600 RPM rated engine speed

3600-watt model features

- 3000-watt continuous
- Recoil start engine
- 120V alternator
- 4.0-gallon fuel tank
- 8.5-hour run time @ full load

6000-watt models feature

- 5500-watt continuous
- Recoil start engine
- 120V/240V alternator
- Automatic idle control
- 6.6-gallon fuel tank
- 6.5-hour run time @ full load
- Wheel kit with tires and rubber gripped handles

8000-watt models feature

- 7000-watt continuous
- Electric start engine (battery included)
- 120V/240V alternator
- Automatic idle control
- 6.6-gallon fuel tank
- 6.0-hour run time @ full load
- Wheel kit with tires and rubber gripped handles
