ROCK BUCKETS

R66 | R75 | R84

Specifications

- Rock buckets are ideal for sifting and sorting material, clearing stone from farm fields, and removing debris from jobsites. Buckets retain rock and debris while digging.
- Tine tips are fully gusseted on both sides for added durability and dependability, and are interconnected for increased strength.
- Like all John Deere attachments, these rock buckets are optimized to work with Deere skid steer loaders (SSLs) and compact track loaders (CTLs). They're also compatible with many competitive models. See your local Deere dealer for details.

	R66	R75	R84
Width	1727 mm (68 in.)	1900 mm (74.8 in.)	2093 mm (82.4 in.)
