

JOHN DEERE

4WD Motor Grader

MAKE GRADE AND MOVE AHEAD IN A BIG WAY

For almost six decades, John Deere motor graders have been building a reputation for outstanding control and effortless grading precision. Thanks to the best ideas of customers like you, we've achieved a legacy of industry firsts. Productivity boosters like exclusive automation features on Grade Pro (GP) models. Jobsite-proven dual-joystick controls. Wide-ranging grade-control options from cross slope to fully integrated SmartGrade models. And the smaller, budget-friendly 620G/GP. Its exceptional balance, optimized performance specs, and reliable capability can help you take grading performance to the next level and your operation in a reimagined new direction.

Just your fit

Our competitively priced 620G/GP offers contractors, townships, and municipalities the grader they asked for, with just the right amount of power and fuel savings of up to 10 percent over our larger models. It's equipped — not stripped — with many of the same performance features found on our larger motor graders.

Power that checks and balances

Increased engine horsepower, torque, and blade pull over earlier models produce generous power and lugging ability, to deliver more power to the ground, easily pull through tough spots, or tackle steep hills. John Deere motor graders are designed with optimal weight distribution over each axle, for outstanding balance and grading performance.

Freedom of choice

Our G-Series Graders let you choose how work gets done. On our GP models, opt for fatigue-minimizing dual-joystick controls, choose state-of-the-art electrohydraulic (EH) fingertip armrest controls, or have the best of both worlds with a field kit that allows you to easily swap between the two. Our G models offer conventional lever-operated controls. And based on customer feedback, all models still have a steering wheel.

Count on cross slope

Standard on all GP models, cross slope maintains slopes by automatically adjusting one side of the blade while the operator controls the other. Cross slope can also be operated in "manual mode" as a slope meter. Automated cross slope simplifies holding a consistent slope by reducing operation to a single lever. Both dual-joystick controls and fingertip armrest controls come equipped with cross slope and can be easily upgraded to 3D SmartGrade.

Unlimited grade control

Industry-first John Deere SmartGrade Motor Graders are fully integrated and calibrated from the factory, arriving at your jobsite ready to work. In-cylinder position sensing allows the machine to stay on grade no matter what blade pitch, articulation angle, or circle offset you're running, without the limitations imposed by masted systems.

Picture yourself here

All-around visibility is virtually unobstructed, with a clear view to the heel and toe as well as behind the moldboard. You can also see the area beneath the front axle, for increased awareness of oncoming obstacles. LCD hi-vis monitor provides intuitive, pushbutton access to vital machine data displayed via simple, easy-to-navigate icons and menus. High-resolution rearview camera with dedicated in-cab monitor comes standard.

Working in tandem

Utility contractors will appreciate the outstanding visibility to the tandems on GP models while working around obstacles such as water mains and hubs. Crab steering positions the tandems on firm ground, reduces side drift, and increases side-slope stability.

Premium productivity

Featuring a fully sealed bearing and pinion that run smoother and guieter, the industry-leading design of the optional premium circle reduces operating costs while delivering 40-percent more torque and 15-percent more speed than a traditional circle. The premium circle eliminates having to compensate for wear in the circle and improves accuracy when using a grade-control system — especially with John Deere SmartGrade. And greasing intervals of only four zerks every 500 hours make the premium circle essentially maintenance free. Durable dual-input and proven single-input circles are also available.

Uptime is everything

All daily service points, including fuel and diesel exhaust fluid (DEF), are grouped on the left side of the machine for convenient ground-level access. On the right, periodic-service points including the engine oil, fuel, hydraulic, transmission, and differential filter bank are within easy reach. Cooling package minus stacked coolers plus hinged swingout fan ease core cleanout. Variablespeed hydraulically driven fan runs only as fast or as often as needed, to conserve power and fuel while reducing noise.

Precision Construction

From grade management and obstacle detection to product automation features and jobsite intelligence, this suite of construction technology delivers productivity solutions to help you get more done, more efficiently.

John Deere construction equipment comes with in-base connectivity free from subscriptions or annual renewals. Analyze critical machine data, track utilization, review diagnostic alerts, and more from the John Deere Operations Center™. The Operations Center also enables John Deere Connected Support™, which uses data from thousands of connected machines to proactively address issues before they arise. Your dealer can also remotely monitor machine health, diagnose problems, and even update machine software without a trip to the jobsite.*

*Availability varies by region and product. Options not available in every country.

PUT INTELLIGENCE TO WORK

With **Automation Suite** including industry-exclusive Auto-Gain for Cross Slope, Auto-Pass, and Auto-Shift PLUS, it's push-button easy to set yourself apart from your competition. Our automation advantages for all Grade Pro (GP) models are also available as field kits on SmartGrade models:

- Auto-Shift PLUS also available on all G-Series models — allows operators to work without using the inching pedal.
- Auto-Gain for Cross Slope automatically adjusts gain settings based on ground speed to maximize performance.
- Auto-Articulation lets the operator increase the maneuverability of coordinated steering and articulation while using only the joystick-steering function to steer and operate other necessary functions without manually articulating the machine.
- Machine-Damage Avoidance eliminates the risk of blade damage to machine structures during any operation.
- Auto-Pass makes grading easy by automatically placing the blade on the ground and activating the grade-control system (when equipped) at the start of the pass, then automatically raising and resetting the blade at the end of it.
- Use Blade Flip to automatically mirror the circle to a preset angle.
- Easily prepare the machine for transport with Machine Presets.
 Stow the blade and ripper, turn on the lights including the hazards, and enable Auto-Shift with one push-button press.

Secondary Steering	26 kg (58 lb.)
Beacon Bracket	8 kg (18 lb.)
Fire Extinguisher	14.5 kg (32 lb.)
Lighting Packages	
10 Halogen Lights	4.5 kg (10 lb.)
18 Halogen Lights	8 kg (18 lb.)
18 LED Lights	7 kg (16 lb.)
High-Front Light Bar for Snowplowing	20 kg (44 lb.)
Auxiliary Hydraulic Control Valve Section and Controls	7 kg (15 lb.)
Hydraulics for Front-Mounted Equipment	9 kg (19 lb.)
Machine Dimensions (continued)	
F Wheelbase	6.16 m (20 ft. 3 in.)
G Overall Length	8.89 m (29 ft. 2 in.)
H Overall Length With Scarifier	9.69 m (31 ft. 9 in.)
I Overall Length With Push Block and Ripper	9.99 m (32 ft. 9 in.)
I ^I Overall Length With Scarifier and Ripper	10.59 m (34 ft. 9 in.)
For Overall Width see Tires/Wheels on page 8.	

Additional equipment

Key: ● Standard ▲ Optional or special See your John Deere dealer for further information.

620G/GP	Operator's Station
•	Low-profile ROPS/FOPS cab with HVAC (ROPS ISO 3471 / FOPS
	SAE 3449 Level II)
A	Low-profile ROPS/FOPS cab utilizing laminated glass with fixed
	lower front and side opening windows
_	Opening front and side windows (standard with Grade Pro)
	Keyless start with multiple security modes
•	Fabric air-suspension seat with armrests and headrest
A	Premium heated, leather/fabric, high-wide-back, air-suspension
	seat with armrests (standard with Grade Pro)
•	Sealed-switch module with function indicators
•	Electric rear-window defroster
•	Upper front windshield washers with intermittent wipers
A	Upper rear windshield washers with intermittent wipers
A	Lower front intermittent wiper and washer
A	Powered cab precleaner
<u> </u>	Decelerator pedal
A	Flip-down, right- and/or left-hand cab beacon with bracket
•	Cab prewired for beacon, radio, and auxiliary circuit
	Front window sun visor
	Retractable rear sunshade
	Rearview mirrors, exterior (2) (SAE J985)
<u> </u>	Heated exterior mirrors (2) (SAE J985)
A	Fire extinguisher
•	High-resolution rear camera with dedicated in-cab monitor
	(in some markets)
A	High-resolution front/rear-camera combination with dedicated
	in-cab monitor
•	Retractable seat belt, 76 mm (3 in.) (SAE 386)
A	AM/FM radio with auxiliary and Weather Band (WB)
A	AM/FM radio with Bluetooth®, auxiliary, and WB ready
	Push-button-activated cruise control

620G/GP	Electrical		
	100-amp alternator (Tier 3/Stage IIIA and Tier 2/Stage II)		
•	130-amp alternator (FT4/Stage V [optional for Tier 3/Stage IIIA		
	and Tier 2/Stage II])		
	200 dilip diterriator (i 1 i) stage vi		
	Batteries (2), 1,400 CCA with 440-min. reserve capacity		
A			
	Right-hand engine compartment service-check light		
	 Transporting lights (4 halogen) 		
	Grading lights (10 halogen lights)		
	Deluxe grading lights (18 halogen lights)		
	Premium grading lights (18 LED lights)		
	Multifunction/multi-language diagnostic LCD color monitor		
	Reverse warning alarm (SAE J994)		
•	LED brake and turn lights		
Moldboard			
	Moldboard		
	Patented pre-stressed, high strength, wear resistant:		
•	Patented pre-stressed, high strength, wear resistant: 3.66 m x 610 mm x 22 mm (12 ft. x 24 in. x ¾ in.)		
•	Patented pre-stressed, high strength, wear resistant:		
_	Patented pre-stressed, high strength, wear resistant: 3.66 m x 610 mm x 22 mm (12 ft. x 24 in. x % in.) 4.27 m x 610 mm x 22 mm (14 ft. x 24 in. x % in.) Quick-change and jackscrew-adjustable moldboard side-shift

access door / Engine coolant surge tank / Hydraulic reservoir cap / Battery-disconnect switch / Ground-level electrical master disconnect switch / Fuel-tank door and cap / Toolbox

Additional equipment (continued)

Key: ● Standard ▲ Optional or special See your John Deere dealer for further information.

620G/GP	Overall Vehicle (continued)	620G/GP	Front Attachments
	Environmental drains with hoses for engine, transmission,		Front push block
	hydraulic, differential fluids, and engine coolant		V-type front scarifier with float position, 5 shanks
	Hydraulically driven cool-on-demand reversing fan		Mid-mount scarifier with float position, 11 shanks
	Banked easy-access vertical spin-on filters for hydraulic,		Front Balderson-style lift group with float position
	transmission, and axle fluids		Front-mounted dozer blades
	Engine rotary ejector precleaner		Rear Attachments
	Automatic differential lock	•	Full bottom guard with access panel and side guards for rear
	Engine-stall prevention and auto shutdown		vehicle protection
	Adjustable rotary engine precleaner (FT4/Stage V)		Rear-mounted ripper/scarifier combination with rear hitch and
	Single-input circle drive		pin, 3 ripper shanks
	Single-input circle drive with slip clutch		Rear counterweight with rear hitch and pin
A	Premium circle		Rear hitch and pin
	Auto-Shift transmission		Extra scarifier shanks (9) with teeth for rear ripper scarifier
	Auto-Shift PLUS transmission		Grade Pro (GP) Option
	Blade-impact-absorption system		Low-profile GP cab with opening lower front and side windows
	Front and/or rear wheel fenders		Low-profile GP cab utilizing laminated glass with fixed lower
	Quick-service bank for transmission, hydraulic, engine oil, and		front and side opening windows
	engine coolant fluid changes	•	Premium heated, leather/fabric, high-wide-back, air-suspension
	Secondary steering		seat with armrests
	Wheel chocks		Dual-joystick controls
	Automation (standard on SmartGrade™ models, optional on	A	Fingertip armrest-mounted controls including steering lever
	Grade Pro [GP] models)		Steering wheel
_	Automation Suite	•	Cross slope
	Auto-Articulation		Return to straight
	Auto-Gain for Cross Slope		Grade Control
	Auto-Pass		SmartGrade available on GP models
	Blade Flip		Mast mounts
	Machine Presets		Topcon ready available on G and GP models
	Machine-Damage Avoidance		Trimble ready available on G and GP models
