Gas-Powered 3,500-psi Hot Water Pressure Washer CC-3500GHH
COLD AND HOT WATER PRESSURE WASHERS

John Deere provides a broad selection of cold and hot water pressure washers for commercial and industrial use. Each model is life- and performance-tested to ensure it performs to your expectations.

Gas engine-driven models are available for exterior applications and electric-driven hot water models are perfect for shop or outside usage.

**CC Series pressure washers** are made for the toughest and most demanding jobs. Built to work all day, every day for heavy-duty applications, like keeping construction equipment clean, this series of washers is perfect for industrial environments.

Gas-Powered 3,200-psi Cold Water Pressure Washer CC-3200GH
COLD WATER PRESSURE WASHERS

The CC Series cold water pressure washers feature an industrial-grade Honda engine to produce more cleaning power and are ideal for removing caked on dirt, mud, mold, and mildew. This series is widely used for commercial cleaning jobs. The cart-mounted design with powder-coated steel base plate, solid steel axles and steel hubbed tires make them easy to maneuver. This series comes with a 2-year limited warranty.

CC Series cold water models feature
- Direct-drive crankshaft pump with ceramic pistons
- Thermal relief valve to prevent the pump from overheating
- Convenient handles with hose wrap and wand holder
- 3 quick-connect spray nozzles for a wide variety of cleaning tasks – 15°, 25° and detergent
- Low-pressure detergent injector to apply recommended detergents
- 36-in. lance assembly with trigger gun

3,200-psi, Gas
196cc Honda GX Engine
- 2.7-gallons-per-minute flow rate
- Adjustable pressure unloader valve
- 50-ft. x ⅜-in. high-pressure hose with quick connect

CC-3200GH

4,200-psi, Gas
389cc Honda GX Engine
- 4.0-gallons-per-minute flow rate
- Adjustable pressure unloader valve
- 50-ft. x ⅜-in. high-pressure hose with quick connect

CC-4200GH
HOT WATER PRESSURE WASHERS

Our CC Series hot water pressure washers are built with industrial Honda or John Deere-Branded OHV engines or electric motors. The crankshaft pumps have ceramic pistons and thermal relief valves to extend the life of these units. Cleaning with high-pressure water heated to approximately 190-200°F is the best way to clean grime and grease from industrial equipment and machinery. Our hot water units feature a 2-year limited warranty with a 3-year limited warranty on the coil and a 5-year limited warranty on the pump.

All CC Series hot water models feature
- Energy-efficient heat exchanger
- Top-fired burner design for better fuel efficiency, easy troubleshooting and maintenance
- High-quality fuel filter/water separator ensures clean fuel supply
- No. 1 or No. 2 diesel or kerosene fired burner
- Coil drain to winterize and prevent freezing
- 50-ft. x ¾-in. steel wire-braided pressure hose
- Adjustable-pressure, insulated dual lance and trigger gun

Electric models feature
- Industrial electric motor; 35-ft. power cord with GFCI
- Adjustable pressure unloader valve
- High-pressure detergent injector to apply recommended detergents
- Intertek Certified

Gas models feature
- Industrial Honda GX or John Deere-Branded OHV engine
- CSA Certified

2,000-psi, Electric
4.0 HP, 230V Motor
- 2.8-gallons-per-minute flow rate
- Direct-drive crankshaft pump
- Quick-connect nozzles – 0°, 15°, 25°, and 40°

Options
- Thermostat: HX-0233
- Hour meter: HX-0235
- Steam: HX-0240
- Auto start/stop: HX-0242

CC-2000EH
PRESSURE WASHERS

3,000-psi, Electric
8.0 HP, 230V Motor

- 3.5-gallons-per-minute flow rate
- Belt-drive crankshaft pump
- Quick-connect nozzles – 0°, 15°, 25°, 40°, and detergent

Options
- Auto start/stop: HX-0070
- Auto start/stop-steam: HX-0072
- Auto start/stop-CAD cell: HX-0074
- Auto start/stop-steam-CAD cell: HX-0076
- Skid feet: HX-0088
- Hour meter: HX-0161
- Adjustable thermostat: HX-0294

CC-3000EH

2,500-psi, Gas

- 2.6-gallons-per-minute flow rate
- Direct-drive crankshaft pump
- Low-pressure detergent injector
- Quick-connect nozzles – 0°, 15°, 25°, and 40°

Options
- Thermostat: HX-0233
- Hour meter: HX-0236

CC-2500GHH
196cc Honda GX Engine

CC-2500GMH
212cc John Deere-Branded OHV Engine
3,500-psi, Gas

- 3.3-gallons-per-minute flow rate
- Direct-drive crankshaft pump
- Low-pressure detergent injector
- Quick-connect nozzles – 0°, 15°, 25°, 40°, and detergent

Options

- Electric-start Honda engine. Battery and cables are included with option. Note: Must be ordered with washer and cannot be added later: HX-0098
- Adjustable thermostat, 250°F: HX-0250
- Hour meter: HX-0279
- Hour meter / adjustable thermostat, 250°F: HX-0281

Psi and gpm may vary + or - 5% from specifications due to variances allowed by component suppliers.

Note: Warranty excludes normal wear items, such as, packings, valves, o-rings, etc.

#49 state engine. Not for sale in California.
Equipment Cover

- Heavy-duty, all-weather cover
- Made from 600 denier vinyl-backed polyester
- To keep your pressure washer clean, dry and looking like new
- Drawstrings to secure cover
- Water resistant
- Dimensions: 48 x 24 x 32-in.

Fits all hot water models

Hose Reel Options

13-in. hose reel, 150-ft. maximum hose length
50-0195
Fits all hot water models

57-in. quick connect jumper hose
852-0139
Fits CC-3000EH, CC-2500GHH, CC-3500GMH, CC-3500GHH and CC-3500GMH models

85-in. quick connect jumper hose
850-0278
Fits CC-2000EH model

Universal mount bracket
AW-0050-0138
Fits CC-2000EH, CC-2500GHH and CC-2500GMH models
Extension Hoses
When you need extra mobility and length.

50-ft. x 3/8-in., 4,000-psi non-marking extension hose with quick connects and bend restrictors, yellow
AWJ-0851-0338

25-ft. x 3/8-in., 4,000-psi non-marking extension hose with quick connects and bend restrictors, yellow
AWJ-0851-0341

50-ft. x 3/8-in., 4,000-psi extension hose with screw connects and bend restrictors, for hot water pressure washers, yellow
AWJ-0850-0199

50-ft. x 3/8-in., 4,500-psi extension hose with quick connects and bend restrictors, for hot water pressure washers, black
850-0433

Quick Connect Nozzles
Orifice size is critical to pressure washer performance, match to original equipment.

Individual nozzles
65° chemical injector nozzle

PRESSURE WASHER ACCESSORIES

Rotating Nozzles
Offers 0° spray impact with 25° coverage. Orifice size is critical to pressure washer performance, match to original equipment.

Rotating nozzle with quick connect – 3.0 orifice
AWJ-7510-0003

Rotating nozzle with quick connect – 3.5 orifice
AWJ-7510-0035

Rotating nozzle with lance – 21-in., 1.2mm orifice
AWJ-0018-0369

Detergent Injectors
Allows you to apply recommended detergents for your cleaning applications.

Low-pressure chemical injector
AWJ-8400-0021
Can be used on cars, boats, engines, etc.

High-pressure chemical injector
AWJ-0050-0161
Can be used on farm equipment, trailers, RVs, bridges, etc.

Trigger Guns
Our trigger guns are lightweight and easy to handle, yet feature an industrial and heavy-duty design.

Trigger gun – up to 4,000-psi
AWJ-0016-0001

Gun – 4500-psi, ¾-in. NPT
AWJ-0016-0441

Gun – 4500-psi, ¼-in. BSP-M
AWJ-0016-0442
**Detergents**

John Deere has detergents to fit any cleaning application.

All-purpose cleaner – 1-gallon container, concentrated  
**AW-4018-JD01**  
Use on vehicles, glass, stainless-steel, aluminum, painted surfaces, and lawn equipment.

Surface preparation – 1-gallon container, concentrated  
**AW-4034-JD01**  
Use on decks, homes and wooden surfaces.

Heavy-duty degreaser – 1-gallon container, concentrated  
**AW-4059-JD01**  
Great for removal of oil and grease. For all your equipment and automotive needs.

---

**Pressure Washer Foamer**

Combines high-pressure water mixed with detergent and air to produce long-lasting, thick clinging foam.

Pressure washer foamer with adjustable flow control  
**AWJ-0018-0459**  
Can be used on farm equipment, windows, roofs, siding, etc.
Diesel-Powered Two-Stage Air Compressor CC2-30KDS
AIR COMPRESSORS

John Deere air compressors feature advanced technology and performance so you can power up everything from impact wrenches to drills, grinders and paint guns.

CC Series air compressors are available in single- and two-stage models. They are designed for tough jobs and are powerful enough to run various air tools at once, such as air hammers, die grinders, impact wrenches, and nail guns. These units have many features and come with either an 8-gallon or 30-gallon receiver tank. They are built so they are easy to transport but still maintain the power needed for the really big jobs.
CC SERIES

Our selection of air compressors feature powerful, efficient single- or two-stage compressors that are designed to maximize your productivity and can be used to power a multitude of air tools. These compressors are powered by a Honda or John Deere-Branded OHV gasoline or Kohler diesel engine. Cast-iron cylinders and canister intake filters come standard with a 2-year limited warranty.

All models feature

- Idle control with continuous run
- Regulator and two gauges for tank and outlet pressure
- Splash-lubricated cast-iron crankcase
- Cast-iron head for heat dissipation
- 7-gauge base plate to reduce vibration
- Convenient lifting handles (8-gallon models)
- Steel hubbed tires (8-gallon models)
- Manual drain valves for proper maintenance
- 16½-in. flywheel for extra cooling and longer life (Two-stage models)

8-Gallon, Single-Stage, Gas

- 13.1 cfm @ 100-psi
- Powder-coated, 8-gallon, twin-tank receivers
- 10-in. flywheel for extra cooling and longer life

CC1-8GM
212cc John Deere-Branded OHV Engine

CC1-8GH
196cc Honda GX Engine
8-Gallon, Two-Stage, Gas

- 17.2 cfm @ 175-psi
- Powder-coated, 8-gallon, twin-tank receivers
- Electric-start standard, battery, box and cables not included

**CC2-8GH**
270cc Honda GX Engine

**CC2-8GM**
300cc John Deere-Branded OHV Engine

30-Gallon, Two-Stage, Gas

- 29.0 cfm @ 175-psi
- Powder-coated ASME coded 30-gallon receiver tank
- Electric-start standard, battery, box and cables not included
- Stationary truck mount kit standard, must be used when installing to truck bed

**Option**

- Battery tray, box and 2-ft. of cables: **AX-0077**

**CC2-30GMS**
420cc John Deere-Branded OHV Engine

**CC2-30GHS**
389cc Honda GX Engine
30-Gallon, Two-Stage, Diesel

9.1 HP Kohler OHV Engine

- 29.0 cfm @ 175-psi
- Powder-coated ASME coded 30-gallon receiver tank
- Electric-start standard, battery, box and cables not included
- Glow plug equipped engine for easy starting in cold temperatures

AIR TOOLS

The John Deere air tool line-up features impact wrenches and ratchet wrenches.

Whether working on a farm or a construction site, you can depend on getting the job done quickly and efficiently when you work with John Deere air tools. All tools feature a 2-year limited warranty.

John Deere’s selection of impact and ratchet wrenches are designed for both the weekend do-it-yourselfer and the professional contractor who depends on his tools every day.

Add more capability and power to your workshop with John Deere’s wide range of impact and ratchet wrenches. These air tools are a great balance of power and portability and will help you get the tough jobs done with a little effort and a lot of precision.
3/8-in. Butterfly Impact Wrench

– Instant forward/reverse with butterfly throttle
– Compact size for access in tight areas
– Multi-step power regulator for added versatility

AT-3113-J

3/8-inch Short Impact Wrench

– 3-mode power setting for forward/reverse
– One-handed operation
– Rubber bumpers for durability
– 360° rotatable air inlet

AT-3118-J

1/2-inch Short Heavy-duty Impact Wrench

– 3-mode power setting for forward/reverse
– One-handed operation
– Rubber bumpers for durability
– 360° rotatable air inlet

AT-3119-J
3/4-in. High-torque Impact Wrench

- Dynapact clutch for high-torque output
- 3-piece housing for easy maintenance
- Steel anvil housing protects internal components
- Ring-type retainer for fast socket changes

AT-3115-J

1/2-inch Heavy-duty Air Impact Wrench

- 1000-ft. lb. torque
- 3 positive power settings
- Excellent power to weight ratio
- Ergonomic handle offers user comfort and reduces operation fatigue

AT-3122-J
### AIR TOOLS

#### 3/8-inch Angle Air Impact Wrench

- 250-ft. lb. torque
- Gearless angle head reduces vibration by 50%
- and increases torque output by 20%
- Easy access in confined spaces, short and compact design
- Low reaction force
- 360° swivel exhaust deflector
- Jumbo hammer mechanism

**AT-3120-J**

#### 1/2-inch Angle Air Impact Wrench

- 300-ft. lb. torque
- Gearless angle head reduces vibration by 50%
- and increases torque output by 20%
- Easy access in confined spaces, short and compact design
- Low reaction force
- 360° swivel exhaust deflector
- Jumbo hammer mechanism

**AT-3121-J**

Increase productivity by merging two vital pieces of equipment into one versatile must-have machine. The John Deere Compresserator combines the power of an industrial air compressor with a powerful generator and is ideal for every industrial application requiring both air and electrical power. Save space, save money and reduce your load capacity with this combination unit.

CC Series Compresserators feature an industrial air compressor and generator combination. Each is built with a 7-gauge base plate to provide strength and durability even in the toughest environments. Whether in the oil fields or the job site, this versatile machine will deliver enough power to get the job done.
CC SERIES

John Deere Compressorators give you the versatility of an 8- or 30-gallon air compressor with a heavy-duty brushless 120V/240V alternator generator. Powered by an industrial Honda or John Deere-Branded gasoline or Kohler diesel engine, these machines come with a two-stage air compressor pump. Each carries a 2-year limited warranty.

All CC Series models feature
- Quality two-stage compressor
- Splash-lubricated, cast-iron crankcase
- Aluminum head for heat dissipation
- Cast-iron cylinder
- Large canister intake filter
- Electric-start standard; battery, box and cables not included
- 7-gauge base plate to reduce vibration
- Manual drain valves for proper maintenance
- Regulator and two gauges for tank and outlet pressure
- 16½-in. flywheel for extra cooling and longer life

8-gallon portable model features
- Powder-coated, 8-gallon, twin-tank receivers
- Convenient lifting handles
- 2 steel hubbed tires
- Idle control with continuous run

30-gallon stationary models feature
- Powder-coated, ASME-coded 30-gallon receiver tank
- Stationary truck mount kit, for installing to truck bed

8-Gallon, Two-Stage Air Compressor/3,500-watt Generator, Gas
- 15.7 cfm @ 175-psi
- Industrial 3,500-watt generator, rated off-load

Options
- Idle control with electric-start Honda engine.
  Battery, box and cables not included.
  Note: Must be ordered with Compressorator and cannot be added later: AX-0068
- Battery tray, box and 2-ft. of cables: AX-0070
- Lifting hook: AX-0028

*Equipped with 150 psi maximum rated regulator.

#49 state engine. Not for sale in California.
The Welderator from John Deere offers the convenience of three machines in one compact platform and is the complete on-site workshop for construction, structural steel and equipment repair professionals.

We’ve taken a two-stage air compressor and combined it with a 5,000-watt generator, but we didn’t stop there. These powerful machines also include a 170- or 220-amp arc welder, powered by an industrial-duty Honda or John Deere-Branded engine.

**CC Series Welderators** feature an industrial air compressor, generator and arc welder. Tough and dependable, this series offers the versatility of either a 20- or 30-gallon tank model, designed to mount into standard service bodies. Both allow the user easy access to controls.
CC SERIES

The John Deere welderator combines a quality, cast-iron, two-stage air compressor, an industrial 5,000-watt generator featuring a brush-type, 2-pole, 120V/240V alternator, and a 170- or 220-amp arc welder with an amperage selection switch. All are powered by an industrial-duty Honda GX engine or John Deere-Branded OHV engine with a 2-year limited warranty.

All Welderator Models feature
- Splash-lubricated, cast-iron crankcase
- Durable stainless-steel braided discharge hose
- Quality pilot valve unloader
- Amperage selection switch
- Regulator and two gauges for tank and outlet pressure
- Manual drain valves for proper maintenance
- Stationary truck mount kit, for installing to truck bed

Generator Mode
- AC current only
- Selector switch set to idle down – engine will idle down when generator is not in use and tank pressure is 175-psi
- Switch is set to full throttle – engine will run full throttle continuously

Welder Mode
- DC current only
- Engine must be running full throttle
- Selector switch must be set to full throttle

30-Gallon, Two-Stage Air Compressor/5,000-watt Generator/170A Arc Welder

420cc John Deere-Branded OHV Engine
- 15.7 cfm @ 175-psi
- Electric-start standard; battery and cables not included
- 4,500-watt off-load; 3,000-watt on-load
- 41.5/20.8 max. amps (120V/240V) off-load
- 37.5/18.8 cont. amps (120V/240V) off-load
- Powder-coated, ASME-coded, 30-gallon receiver tank
- 3/16-in. base plate to reduce vibration

Options
- Battery tray, box and cables; do not use if unit will be truck-mounted. Note: Must be ordered with Welderator and cannot be added later: AX-0070
- Welder plug, dinse plug male, LDP-5M: 32-1118

Diesel-Powered 6,000-Watt Portable Generator
CC-G6000KD
PORTABLE GENERATORS

If you’ve ever been without power, you know how important it is to be prepared in those conditions. Whether you are a homeowner or a business owner, a backup generator can be a lifesaver. John Deere generators provide backup electrical power not only for small property and business markets, but also for large property owners and contractors who use them as virtual power plants.

John Deere portable generators come in a variety of sizes and every unit is CSA tested for safety.

John Deere generators are the ultimate power tool and will meet the requirements of the most demanding applications, whether on a construction site or for industrial business.

CC Series generators are industrial grade with rugged construction, and perfect for job sites and day long events. Built for the most demanding jobs, generators in this series range from 6,000 up to 14,000-watts of power and are designed for heavy-duty use.

CC-G14010H
GENERATORS

CC SERIES

Models in the CC Series range from 6,000-watts to 14,000-watts and are available with either a Honda GX gasoline or Kohler diesel engine. All are CSA listed, and come standard with a fuel shut-off valve, enhanced vibration dampeners, electric-start, and a 2-year limited warranty.

All CC Series models feature
- Brushless 120V/240V alternator
- Total harmonic distortion (THD) less than 5%
- 100% copper windings
- Spark arrestors
- Fuel shut-off valve
- Enhanced vibration dampeners
- 3,600-rpm rated engine speed
- Honda GX gasoline or Kohler diesel engine with low-oil shutdown
- Electric-start standard; battery not included
- Fuel gauge
- Voltmeter/hour meter
- Idle control (Gasoline models)

TRANSFER PUMPS

John Deere pumps are designed and built to be exceptionally durable and easy to transport in the back of your truck so they can be quickly moved from one site to the next. With excellent suction and high-pressure output capabilities, these pumps can move a large volume of liquid very quickly. Talk to your John Deere dealer about your pump needs.

CC Series pumps include two sizes of self-priming, semi-trash pumps and two sizes of self-priming, trash pumps that are designed to move large amounts of water and are rugged enough to handle mud, leaves, twigs, sand, and sludge. Both the semi-trash and trash pumps are fitted with a mechanical (silicon carbide) seal to ensure maximum durability and performance and the cast-iron impeller and volute help to reduce vibration and wear.
SEMI-TRASH PUMPS CC Series

The John Deere semi-trash pumps are powered by a Honda GX engine and come in a 2-inch or 3-inch suction and discharge size that can handle solids up to 7/8-inch. Both feature a precision-molded, cast-iron impeller and volute to help reduce vibration and wear, and offer a 2-year limited warranty.

**All CC Series models feature**

- Mechanical (silicon carbide) seal
- 28-ft. suction head

2-in. Suction/Discharge Size

118cc Honda GX Engine

- 50-psi
- 9,720-gph max. capacity

TOOL STORAGE

Optimize your storage and keep tools secure with John Deere tool chests, truckboxes and jobsite boxes.

Whether you transport tools and equipment from one site to another or just need to keep them safely locked away in your garage or shop, these boxes can help you to stay organized and protect your investment.

The rugged design, heavy-duty construction, easy-lifting lids, and locks to keep your tools safe, are all features of these toolboxes. To find the right one for your needs, talk with your John Deere dealer.

Storage equipment is as important as the tools that are used to get the job done and the heavy-duty, powder-coated steel construction of the John Deere tool chests and cabinets make them some of the most popular on the market today. Offering all the space and compartments you need to keep your tools organized and available where and when you need them.

TOOL CHESTS AND CABINETS

Heavy-duty, powder-coated steel construction makes the John Deere tool chests and cabinets some of the most popular tool storage units on the market today. Raise and release drawer fronts keep drawers closed and secure when moving. Available in a variety of sizes and with a 5-year warranty.

Features

– Extra heavy-duty ball-bearing drawer slides
– Latching drawer slides with lift-to-open feature
– Secure keyed locking system
– Grommet in till for power cord
– Fold-over drawer side for increased strength

46-in. Tool Chest

– 24-in. depth
– 6 drawers
– Gas struts lid support
– 600-lb. total drawer load capacity
– Load rating of 100 lb. per pair

AC-4624CH-B

46-in. Cabinet

– 24-in. depth
– 9 drawers
– 5-in. x 2-in. easy-rolling polyurethane casters with a 2000-lb. load rating
– Tubular steel handle
– 1200-lb. total drawer load capacity
– Load rating of 100 lb. per pair

TRIANGLE TOOLBOXES

The unique design of the triangle toolboxes keeps your tools, whether metric or SAE, in place and organized when the lid is secured and you are transporting them in the back of your pickup or John Deere Gator™. These distinctive toolboxes allow you to see your entire tool inventory at a glance. Available in three sizes, either with a durable powder-coat black or construction yellow finish, with a 5-year limited warranty.

Features
- Weather stripping creates a tight seal against dust and moisture
- 16-gauge steel with welded seams for added strength
- Gas strut raises lid when unlatched for easy tool access
- Sturdy side handles make moving the box easy
- Secure keyed locking system

ROAD BOX

The 36-inch, 5-drawer John Deere road box is available in a black powder-coat finish and is the perfect solution for keeping your tools organized when you are on the move. Its secured keyed locking system with over-molded keys and the reinforced drop-front security panel with gasket closure protects your tools from weather and theft. The 16-gauge cradle provides extra reinforcement for day-to-day usage on and off the worksite. Offers a 2 year limited warranty.

36-in. Road Box

- 5 drawers
- Full-extension friction slides
- Gas struts lid supports
- Heavy-duty steel frame with lifting points
- Reinforced drawer edges
- Bottom-skid rails provide additional reinforcement and strength – allowing access for a forklift
- Precut drawer liners cushion and protect tools

CROSSOVER TRUCKBOXES

John Deere crossover truckboxes fit full-sized truck beds, come in either a single lid or a dual lid design, and are constructed of durable 15-gauge Brite-Tread aluminum and powder-coated black aluminum. They feature a fully insulated crown lid design for extra strength and the single lid boxes include a portable tool tray and 1-year limited warranty.

Features
- Stainless-steel paddle handles offer convenient access to storage and can be opened from either side
- Key locks provide security
- Gas cylinders lift and hold the lid out of the way
- Full-length piano hinges
- Self-centering latch strikers never need adjustment and close tightly (patent pending)
- Half pan support design reinforces the lid for superior rigidity
- Closed cell foam gasket prevents water and other unwanted elements from getting inside the box

JOBSITE BOXES

All John Deere Jobsite Boxes feature heavy-duty solid steel construction with full arc-welded seams and a durable powder-coat finish. The reinforced support skids make the boxes easy to transport while offering added protection. Add tool trays to increase your inside storage space and casters for easy movement to make these jobsite boxes the ultimate tool storage for your worksite. Offers a 1-year warranty.

Features
- Special powder-coat finish for extreme durability
- Tamper-proof designed padlock protectors
- Full-length concealed hinges are riveted for additional protection and strength
- Special locking lid support locks the lid open to prevent accidental closings
- Pre-drilled skids for easy caster installation
- Convenient swing-out handles for additional mobility

Two sizes available
CC-4822JB  13.44 cu. ft.
CC-4830JB  25.00 cu. ft.

SHOP TOWELS

John Deere shop towels are made with 40-percent post consumer waste, meeting the EPA Comprehensive Procurement Guidelines for recycled content. They are soft on the hands and face yet built to be durable and won’t fall apart even when wet. Convenient, disposable towels for general cleanup, great for grease and oil absorption. Available in pop-up cardboard cartons, center-pull plastic bucket or in handy rolls.

Center-Pull Cardboard Carton

– 10 x 12-in. sheet size
– 200 count/box
– Designed for convenient use and dispensing

DRC4223

Center-Pull Plastic Bucket & Refill

– 10 x 12-in. sheet size
– 200 count/bucket
– Center-pull keeps your towels clean and dry until they are needed
– Bucket includes an on/off dispensing bracket

ABSORBENTS

The absorbent mats will handle everything that may leak, drip or spill on any shop floor. Save time and money by eliminating the need to mop or sweep up spills, plus these mats are cheaper to use than old fashioned floor dry/kitty litter.

Features

- Absorbs oil, water, grease, transmission fluids, hydraulic fluids, antifreeze/coolants, and many other fluids
- For use in general maintenance, around hose machines, and wherever fluids may leak or spill
- Works great in fields dealing with leaks, drips or spills
- Made with 80% recycled cellulose fibers for superior absorbency
- More cost effective than oil-based polypropylene sorbent mats
- Class A fire retardant (lab tested per ASTM E84)

Single-Layer Pads

- 15 x 19-in. sheet size
- 100 count/case

Perforated Roll

- 28.5-in. x 150-ft. roll
- 15 x 19-in. sheet size/perforated
- Sold by the roll
