Contract Details

Delivery Obligations	<p><u>Equipment Transport</u></p> <p>Each unit shall be provided with the following:</p> <p>The operating weight of the unit (in pounds) as delivered, including standard equipment and all specified options and with full fluid capacities, shall be stenciled by the entity installing the mower in two-inch-high black letters/numerals on each side of the machine in a conspicuous location. Four (4) tie-down points for safely securing the unit during trailer transport. One (1) tie-down point shall be located as close as practicable to each of the unit's lower four (4) corners. The tie-down points shall have an aggregate rated strength of at least one and one-half times the unit's gross weight. If lashing (D) rings are provided on the tractor, the rings shall accommodate a ½ inch (13mm), grade 80, grab hook. The weight centerline, computed with full fuel tank and mower in transport position, without operator, shall be clearly marked by the entity installing the mower on each side of the unit with a green vertical line approximately 3 inches wide and 5 inches high. (This is for safe loading on trailers). When tractors are purchased without mowers, the tractor manufacturer/supplier is responsible for complying with these requirements. Weight and centerline is required on tractor only purchases, as well as tie-downs.</p> <p><u>Training</u></p> <p>In conjunction with delivery of the first unit, the successful bidder shall conduct a minimum one-</p>
