

Frontier Disc Mower Caddy

DC1000 • Cat II Disc Mower Caddy

Frontier DC1000 Disc Mower Caddy

Frontier DC1000 Disc Mower Caddy is the better way to pull your disc mower. Now here's an affordable caddy with all the important features you need to stay productive in the field: ease of use, superior maneuverability, and adaptability.

Easy hook-up: The Frontier Disc Mower Caddy lets you connect your tractor to your 3-point disc mower effortlessly. Simply drop in the caddy hitch pin, attach the hydraulic hoses, and you're ready to mow.

Maneuverability: The DC1000 allows you to extend the distance from tractor to disc mower so you can make sharp turns with ease. And with greater extension, you have more time to steer clear of hard-to-see obstacles.

Adaptability: With the Frontier DC1000, you can better match the horsepower required to operate your disc mower with your tractor's horsepower – helping to reduce fuel consumption and lower operating costs.

The Frontier Disc Mower Caddy is sold and supported by John Deere, the most trusted name in farm, ranch and lawn equipment. Talk to your local John Deere dealer, your exclusive source of Frontier Equipment.

Easy hook-up

The Frontier Disc Mower Caddy provides the necessary 3-point lift capacity to connect your disc mower to your tractor. Equipped with three hydraulic hoses and a Category IV 540 PTO driveline to handle high torque loads, you've got everything you need for an easy hook-up.

Maneuverability

The DC1000 allows you to mow with greater confidence, whether you're working in small or uneven hay fields. Plus, this maneuverable attachment lets you make tight, square corners with ease. And with a rugged 4- x 6-inch frame, you get the durability you need to tackle tough mowing chores.

easier, improves handling, simplifies mowing

All The Features You Need To Stay Productive

Excellent mowing visibility

Get moving on your mowing chores

The Frontier Disc Mower Caddy offers responsive handling to take sharp turns with ease. And because the DC1000 provides extra spacing between tractor and disc mower, you get more time to react to field obstacles. Frontier DC1000 Disc Mower Caddy is compatible with Frontier, John Deere, and other Category 2 disc mowers.

Easy adjustments to simplify your workday

Adjustable height clevis allows the caddy to be leveled to fit the specifics of your tractor, ensuring proper raising and lowering of disc mower.

Set cutter depth with the manual turnbuckle adjustment. Shorten the turnbuckle to reduce cutting height. Or for higher cutting height, increase turnbuckle length.

Hydraulic lift rockshaft lets you lower and raise your disc mower from the tractor seat. Transport lock-up bracket prevents your disc mower from lowering during transport, avoiding potential damage to the implement.

Mounting brackets let you add weights on the caddy to provide additional ballasting when working with larger disc mowers.

Frontier Disc Mower Caddy Pulls through tough mowing jobs

Specifications
